Sir Pelham Grenville Wodehouse was an English author and one of the most widely read humorists of the 20th century. His creations include the feather-brained Bertie Wooster and his sagacious valet Jeeves, the immaculate and loquacious Psmith, Lord Emsworth, and the Blandings Castle set. The *Oldest Member* with stories about golf and Mr Mulliner with tall tales on subjects ranging from bibulous bishops to megalomaniac movie moguls. Born in Guildford, the third son of a British magistrate based in Hong Kong, Wodehouse spent happy teenage years at Dulwich.

College to which he remained devoted all his life After leaving school he was employed by a bank but disliked the work and turned to writing in his spare time His early novels were mostly school stories but he later switched to comic fiction Most of Wodehouse's fiction is set in his native United Kingdom although he spent much of his life in the US and used New York and Hollywood as settings for some of his novels and short stories Wodehouse worked extensively on his books sometimes having two or more in preparation simultaneously He would take up to two years to build a plot and write a scenario of about thirty thousand words After the scenario was complete he would write the story Early in his career he would produce a novel in about three months but he slowed in old age to around six months He used a mixture of Edwardian slang quotations from and allusions to numerous poets and several literary techniques to produce a prose style that has been compared to comic poetry and musical comedy

Understanding Lord of the Flies Kirstin Olsen, 2000-05-30 A seemingly simple tale of schoolboys marooned on an island Lord of the Flies has proven to be one of the most enigmatic and provocative pieces of literature ever published This casebook probes the many layers of meaning in the novel examining its literary philosophical historical scientific and religious significance Beginning with a literary analysis that explores the universality of the novel's characters the story is considered as subversion of the adventure tale comparing it to such classics as Treasure Island and Robinson Crusoe From these literary depictions of savagery this study delves deeper confronting the long running philosophical and biological debates about human nature that have absorbed such influential

The Road to Armageddon Cecil D. Eby, 1987 The Lost Generation has held the imagination of those who succeeded them partly because the idea that modern war could be romantic generous and noble died with the casualties of that war From this remove it seems almost perverse that Britons Germans and Frenchmen of every social class eagerly rushed to the fields of Flanders and to misery and death In The Road to Armageddon Cecil Eby shows how the widely admired writers of English popular fiction and poetry contributed at least in England to a romantic militarism coupled with xenophobia that helped create the climate that made World War I seem almost inevitable Between the close of the Franco Prussian War of 1871 and the opening guns of 1914 the works of such widely read and admired writers as H G Wells Rudyard Kipling J M Barrie and Rupert Brooke as well as a host of now almost forgotten contemporaries bombarded their avid readers with strident warnings of imminent invasions and prophecies of the collapse of civilization under barbarian onslaught and internal moral collapse Eby seems these narratives as growing from and in turn fueling a collective neurosis in which dread of coming war coexisted with an almost loving infatuation with it The author presents a vivid panorama of a militant mileau in which warfare on a scale hitherto unimaginable was largely coaxed into being by works of literary imagination The role of covert propaganda concealed in seemingly harmless literary texts is memorably illustrated
