Gestures of Concern Chris Ingraham,2020-07-27 In *Gestures of Concern* Chris Ingraham shows that while gestures such as sending a Get Well card may not be instrumentally effective they do exert an intrinsically affective force on a field of social relations From liking sharing posting or swiping to watching a TED Talk or wearing an I Voted sticker such gestures operate as much through affective registers as they do through overt symbolic action Ingraham demonstrates that gestures of concern are central to establishing the necessary conditions for larger social or political change because they give the everyday aesthetic and rhetorical practices of public life the capacity to attain some socially legible momentum Rather than supporting the notion that vociferous public communication is the best means for political and social change Ingraham advances the idea that concerned gestures can help to build the affective communities that orient us to one another with an imaginable future in mind Ultimately he shows how acts that many may consider trivial or banal are integral to establishing those background conditions capable of fostering more inclusive social or political change

Mediation and Multimodal Meaning Making in Digital Environments Ilaria Moschini,Maria Grazia Sindoni,2021-11-15 This collection explores the mediation of a wide range of processes texts and practices in contemporary digital environments through the lens of a multimodal theory of communication Bringing together contributions from renowned scholars in the field the book builds on the notion that any form of digital communication inherently presents a rich combination of different semiotic modes and resources as a jumping off point from which to critically reflect on digital mediation from three different perspectives The first section looks at social and semiotic practices and the implications of their mediation on artistic production cultural heritage and commerce The second part of the volume focuses on dynamics of awareness cognition and identity formation in participants to digitally mediated communicative processes The book's final section considers the impact of mediation on shaping new and different types of textualities and genres in digital spaces The book will be of particular interest to scholars researchers and students in multimodality digital communication social semiotics and media studies

Advancing Recommender Systems with Graph Convolutional Networks Fan Liu,Liqiang Nie,2025-03-29 This book systematically examines scalability and effectiveness challenges related to the application of graph convolutional networks

GCNs in recommender systems By effectively modeling graph structures GCNs excel in capturing high order relationships between users and items enabling the creation of enriched and expressive representations The book focuses on two overarching problem categories the first area deals with problems specific to GCN based recommendation models including over smoothing noisy neighboring nodes and interpretability limitations The second one encompasses broader challenges in recommendation systems that GCN based methods are particularly well suited to address as the attribute missing problem or feature misalignment Through rigorous exploration of these challenges this book presents innovative GCN based solutions to push the boundaries of recommender system design To this end techniques such as interest aware message passing strategy cluster based collaborative filtering semantic aspects extraction attribute aware attention mechanisms and light graph transformer are presented Each chapter combines theoretical insights with practical implementations and experimental validation offering a comprehensive resource for researchers advanced professionals and graduate students alike

Hit Makers Derek Thompson, 2017-02-07 What makes a hit a hit In *Hit Makers* Atlantic Senior Editor Derek Thompson puts pop culture under the lens of science to answer the question that every business every producer every person looking to promote themselves and their work has asked Drawing on ancient history and modern headlines from vampire lore and Brahms's Lullaby to Instagram Thompson explores the economics and psychology of why certain things become extraordinarily popular With incisive analysis and captivating storytelling he reveals that though blockbuster films Internet memes and number one songs seem to have come out of nowhere hits actually have a story and operate by certain rules People gravitate towards familiar surprises products that are bold and innovative yet instantly comprehensible Whether he is uncovering the secrets of JFK and Barack Obama's speechwriters or analysing the unexpected reasons for the success of *Fifty Shades of Grey* Thompson goes beyond the cultural phenomena that make the news by revealing the desires that make us all human While technology might change he shows our innate preferences do not and throughout history hits have held up a mirror to ourselves From the dawn of Impressionist art to the future of Snapchat from small scale Etsy entrepreneurs to the origin of Star Wars Derek Thompson tells the fascinating story of how culture happens and where genius lives

The three types of nuclear radiation are radiation, radiation, and radiation. 25.2 Nuclear Transformations. 25.2 Nuclear Transformations Carbon-14 emits beta radiation and decays with a half-life ($t_{1/2}$) of 5730 years. Assume you start with a mass of 2.00 10¹² g of carbon-14. a. How long is ... ECON101 - Ch.25 Section Review Answers For the electronic transition from $n = 3$ to $n = 5$ in the hydrogen atom. a) Calculate the energy. b) Calculate the wavelength (in nm). Chapter 25 Nuclear Chemistry 25.2 Nuclear Transformations Sep 5, 2017 — Nuclear Chemistry Targets: 1.I CAN Utilize appropriate scientific vocabulary to explain scientific concepts. 2.I CAN Distinguish between fission ... Matter and Change • Chapter 25 When a radioactive nucleus gives off a gamma ray, its atomic number increases by. 12. The three types of radiation were first identified by Ernest Rutherford. Nuclear Chemistry - Lake Central High School Jul 12, 2015 — What is the change in atomic number after the alpha decay?It decreases by 2.b. ... answer the following questions.Nuclear ... 25.2 Nuclear Transformations | Lecture notes Chemistry These nuclei decay by turning a neutron into a pro- ton to emit a beta particle (an electron) from the nucleus. This process is known as beta emission. It ... 60 s - 1 min SECTION 25.2 NUCLEAR TRANSFORMATIONS. 1. Write a nuclear equation for the

following radioactive processes. a. alpha decay of francium-208 $^{208}\text{Fr} \rightarrow \text{b} \dots$
