The Artificial Intelligence Imperative Anastassia Lauterbach, Andrea Bonime-Blanc, 2018-04-12 This practical guide to artificial intelligence and its impact on industry dispels common myths and calls for cross-sector collaborative leadership for the responsible design and embedding of AI in the daily work of businesses and oversight by boards. Artificial intelligence has arrived, and it's coming to a business near you. The disruptive impact of AI on the global economy, from health care to energy, financial services to agriculture and defense to media, is enormous. Technology literacy is a must for traditional businesses, their boards, policy makers, and governance professionals. This is the first book to explain where AI comes from, why it has emerged as one of the most powerful forces in mergers and acquisitions and research and development, and what companies need to do to implement it successfully. It equips business leaders with a practical roadmap for competing and even thriving in the face of the coming AI revolution. The authors analyze competitive trends, provide industry and governance examples, and explain interactions between AI and other digital technologies such as blockchain, cybersecurity, and the Internet of Things. At the same time, AI experts will learn how their research and products can increase the competitiveness of their businesses and corporate boards will come away with a thorough knowledge of the AI governance ethics and risk questions to ask.

Business Creation Report for a fictitious Company Julia Schröder, 2022-05-04 Seminar paper from the year 2021 in the subject Business economics. Company formation. Business Plans. grade 1-2. language English. abstract: This paper is about the app Helpertation. An app that allows academic papers to be

uploaded before submission so that others can check them for grammatical or linguistic errors for little money Helpertation would be a great help to many especially foreign students or those working in other languages By having another real person check it errors are uncovered that mechanical translators cannot find Both parties benefit from the app as a user gets help in checking their work and the helper can earn some money by taking the time To stay in the customers minds Helpertation uses the slogan Help with your Assignment Ideally this advertising message stays in the customer s mind for a longer period of time and prompts them to use the app Our mission is to give everyone the opportunity to write an error free thesis in a foreign language The Helpertation principle is not yet very widespread All the competitors that can be found are only represented as a website and not in the form of an app The focus is that all examiners have to prove their language skills in order to guarantee the quality of the correction A rating system is also planned so that others can immediately see whether the examiner is suitable
