Trump, Putin und die Vereinigten Staaten von Europa Hans-Werner Sinn, 2025-10-13 In seinem neuen Buch analysiert der renommierte Ökonom und Bestseller Autor Hans Werner Sinn die tektonischen Verschiebungen der Weltordnung Er beleuchtet die Machtpolitik von Donald Trump und Wladimir Putin stellt deren Einfluss auf Europa in den Kontext globaler Interessen und entwickelt eine pointierte Vision für die Schaffung eines europäischen Bundes Die Ereignisse der letzten Monate und Jahre machen unmissverständlich klar dass Europa sein Schicksal auch sicherheitspolitisch selbst in die Hand nehmen muss Es braucht einen wirksamen militärischen Schutz vor einem expansionistischen Russland und einen ebenso wirksamen politischen Schutz vor einer wankelmütigen USA Für Hans Werner Sinn schlägt daher die Stunde Europas Es muss die einst verpasste Chance zu einer politischen Union zu werden jetzt zügig ergreifen und sich zu einem starken geeinten Europa entwickeln mit einem echten Parlament und einer gemeinsamen demokratisch gewählten Regierung die aber eigene Streitkräfte verfügt und sich innerhalb der NATO ähnlich wie die USA positionieren kann Der Autor schlägt dazu die Gründung

eines europäischen Bundes vor der nicht Teil der EU ist und auch Länder wie Großbritannien und Norwegen umfassen kann. Wie Deutschland in den 1990er Jahren seine D-Mark unter dem Namen Euro sozialisierte und es zuließ, dass die EZB einen fiskalischen Schutzschirm für die schwächeren Mitglieder der Währungsunion aufspannte, muss jetzt Frankreich seine Streitkräfte europäisieren und zulassen, dass seine nukleare Abschreckungskapazität Europa zugutekommt. Dabei tut Eile nicht nur der politischen Union, sondern potenzielle Aggressoren und eigenmächtig agierende NATO Verbündete wirklich beeindrucken und bewegen einer Friedensordnung unter gleichwertigen Partnern zuzustimmen. Mit gewohnt klarer Sprache zeigt Hans Werner Sinn, welche historische Chance die gegenwärtige Polykrise bietet. Ein Buch für alle, die hinter Schlagzeilen blicken und globale Entwicklungen verstehen wollen. *Young People and Uncertain Futures?* James Goring, Peter Kelly, 2025-08-29

Drawing on Foucault's genealogical ethos and his work on power/knowledge subjects, this book analyses the ways in which neo-liberal education apparatuses in Australia and other high income economies frame the problem of young people and uncertain futures. The book critically examines the character of the presents and futures of education, training and work and of the planet that have been produced in globalising neo-liberal capitalism during the last four decades and which see in the development of young people's enterprise and aspiration the solutions to multiple crises and uncertainties. It analyses how and why young people's behaviours and dispositions have been made knowable in these ways and the limits and possibilities that they produce for understanding what young people must be and become. The book draws on post-humanist, feminist studies of techno-science and futures studies to explore the promise of more socially just and sustainable futures for young people. A thought-provoking study for scholars and students of the sociology of education and of youth and society, it will be invaluable for policymakers, governments, NGOs, educators and undergraduate and postgraduate students interested in young people and the crises of capitalism, earth systems and the biosphere. *Pitch Your Potential* Vicki Johnson, 2026-01-06
