unstructured data into valuable business insight Unstructured Data Analytics provides an accessible non technical
introduction to the analysis of unstructured data Written by global experts in the analytics space this book presents
unstructured data analysis UDA concepts in a practical way highlighting the broad scope of applications across industries
companies and business functions The discussion covers key aspects of UDA implementation beginning with an explanation
of the data and the information it provides then moving into a holistic framework for implementation Case studies show how
real world companies are leveraging UDA in security and customer management and provide clear examples of both
traditional business applications and newer more innovative practices Roughly 80 percent of today s data is unstructured in
the form of emails chats social media audio and video These data assets contain a wealth of valuable information that can be
used to great advantage but accessing that data in a meaningful way remains a challenge for many companies This book
provides the baseline knowledge and the practical understanding companies need to put this data to work Supported by
research with several industry leaders and packed with frontline stories from leading organizations such as Google Amazon
Spotify LinkedIn Pfizer Manulife AXA Monster Worldwide Under Armour the Houston Rockets DELL IBM and SAS Institute
this book provide a framework for building and implementing a successful UDA center of excellence You will learn How to
increase Customer Acquisition and Customer Retention with UDA The Power of UDA for Fraud Detection and Prevention The
Power of UDA in Human Capital Management Human Resource The Power of UDA in Health Care and Medical Research The
Power of UDA in National Security The Power of UDA in Legal Services The Power of UDA for product development The
Power of UDA in Sports The future of UDA From small businesses to large multinational organizations unstructured data
provides the opportunity to gain consumer information straight from the source Data is only as valuable as it is useful and a
robust effective UDA strategy is the first step toward gaining the full advantage Unstructured Data Analytics lays this space
open for examination and provides a solid framework for beginning meaningful analysis **“This Is America”** Katie
Rios,2021-06-10 In This Is America Race Gender and Politics in America s Musical Landscape Katie Rios argues that
prominent American artists and musicians build encoded gestures of resistance into their works and challenge the status quo
These artists offer both an interpretation and a critique of what This Is America means Using Childish Gambino s video for
This Is America as a starting point Rios considers how elements including clothing hairstyles body movements gaze lighting
effects distortion and word play symbolize American dissonance From Laurie Anderson s presence in challenging authority
and playing with traditional gender roles in her works to the Black female feminism and social activism of Beyonc Rhiannon
Giddens and Janelle Mon e to hip hop as resistance in the age of Trump to sonic and visual variety in the musical Hamilton

the subjects are as powerful as they are topical Rios explores the ways in which artists relate to and represent underrepresented groups especially groups that are not traditionally perceived as having a majority voice The encoded resistances recur across performances and video recordings so that they begin to become recognizable as repeated acts of resistance directed at injustices based on a number of categories including race gender class religion and politics *The Gadget Show* ,2014-03-20 Channel 5 s The Gadget Show finally has its own Shiny New Book Here the presenters of the show bring you their complete guide to gadgets punishing and pushing every conceivable type of technology to the limit scouring the globe for the latest and most breath taking new tech Read all about the firsts the worsts and the downright most ridiculous inventions in gadget history Discover the best ever gadgets in our top ten lists reviews and head to head gadget face offs find out all you want to know about Jason Rachel Polly and Jon and even learn how to make your own mobile phone charging trousers or leaf blowing hoverboard Get your geek on with Polly s top Techy Thrills Jon s G Ratings and revealing interviews with visionary inventors and celebrity gadget testers and uncover the secrets behind the tech they really don t want you to know about This is the book The Gadget Show fans have been waiting for complete with puzzles quizzes and a look behind the scenes what goes on in the studio and on the road and what happens to all the gadgets after the show A must have techfest for gadget fans everywhere

Making it Personal Tanya Kant, 2020 Targeted advertisements tailored information feeds and recommended content are now common and somewhat inescapable components of our everyday lives With the help of searches browsing history purchases likes and other digital interactions technological experiences are now routinely personalized Companies with access to this information often downplay the fact that users' personal data serves as a key form of monetization and their privacy policies tend to use the terms personalization and customization to legitimize the practice of tracking and algorithmically anticipating users' daily movements In *Making it Personal* Tanya Kant sheds light on the dilemmas of algorithmic personalization exploring such key contemporary questions as What do users really know about the algorithms that guide their online experiences and social media presence And if personalization practices seek to act on our behalf then how can users constitute, retain or relinquish their autonomy and sense of self At the heart of the book are new interviews and focus groups with web users who through a myriad of resistant, tactical, resigned or trusting engagements encounter algorithmic personalization as part of their lived experience on the web Tanya Kant proposes that for those who encounter it algorithmic personalization creates epistemic uncertainties that can emerge as trust or anxiety produces an ongoing struggle for autonomy between user and system and even has the power to intervene in identity constitution In doing so algorithmic personalization does not just generate filter bubbles for individuals' worldviews but also creates new implications for knowledge production the deployment of cultural capital as an algorithmic tactic and above all formations of identity itself
