The Heroes of the Judicial Periphery Alan Uzelac, Stefaan Voet, 2025-05-01

This book assesses the role of court experts court clerks and court staff and other actors on the judicial periphery who play an important role and often co determine the pace outcome and tone of the judicial process In national civil justice systems the limelight is all too often cast on the main actors judges lawyers and parties but the court s support staff can sometimes be overlooked This book explores their role The knowledge and skills of experts may be indispensable at times but it is among the most expensive complicated and time consuming means of evidence The judges adjudicate but where experts are involved in the process they have a decisive impact on the outcome of litigation Therefore a principal focus of the book is on experts and how they are appointed managed and remunerated across Europe and the world Other ancillary professions may also be decisive for effective provision of court services Different jurisdictions have different rules and habits but inevitably recognise the need of adequate support for judges Sometimes judges command the whole team of clerks and lawyers sometimes they share a secretary or a clerk But in all cases those who assist judges in their daily work have a significant impact on the effectiveness and quality of the judicial process and its outcome The book considers the contribution of

different actors including clerks secretaries advisors counsels and reporters It focuses on cooperation and the interplay between judges and other professional actors in litigation
