The **period** of a wave is the distance it takes to complete one wave-like pattern. For a sine graph, you can remember the pattern of the wave by the phrase 'middle-high-middle-low-middle'. This suggests that the curve will start at the x -axis, increase to $y = 1$, decrease to the x -axis again, and finish at $y = -1$.

In the example above, the period begins at $x = 0$ and ends at $x = 2\pi$. This means that the period is 2π . The halfway point of the period is at $x = \pi$.

Cosine

The amplitude of the parent cosine graph is the same as that of the sine graph: 1. This means that the maximum value for a $y = \cos(x)$ is 1 and the minimum value is -1 .

The period of the wave is also 2π . However, the wave looks a bit different from the sine wave. The pattern for a cosine wave can be remembered as 'high-middle-low-middle-high'. It begins at $y = 1$ at the origin, decreases to $y = -1$, then increases back to $y = 1$.

W. Chan,2014-02-04 In 1948 the United Nations General Assembly proclaimed the Universal Declaration of Human Rights stating every human being s right of equality in dignity and right However notwithstanding recognition by the international community of its importance and codification in numerous national and sub national constitutions and legislation reinforced by various multilateral and regional human rights treaties the right of equality continues to be unable to take complete firm hold in all regions and countries Evidence as presented by the insightful papers in this collection published initially as a Special Double Issue of The International Journal of Human Rights dedicated to exploring the place of equality in Asia Pacific societies suggests that although progress is being made the right of equality has not yet fully materialized both in law and in reality in the world s most populous region Many factors particularly entrenched cultural heritage and practices the lingering effects of colonialism and newly found independence and above all pervasive ignorance and prejudices continue to impede the recognition development and protection of equality in this region Of course equality a normative right and entitlement by virtue of our humanity has neither been fully achieved in societies outside the region Such neo colonial thinking in fact perpetuates and assists in the subjugation of the right of equality in the Asia Pacific Region as a matter of relevance and concern only to Western countries Accordingly we hope that our discussions will also be able to shed light and generate reflections on realities outside the

such as listening for discovery validating feelings preserving white space expressing gratitude exercising empathy practicing radical acceptance using expressions of care Imagine a world where these seven principles guide our interactions with each other Sound heavenly Neighborly It all starts with you Do Ask Do Tell: Speech Is a Fundamental Right; Being Listened to Is a Privilege Bill Boushka, 2014-02-26 Do Ask Do Tell Speech Is a Fundamental Right Being Listened to Is a Privilege is the third of a sequence of my Do Ask Do Tell books The general themes of the books are individualism and personal responsibility and especially how these precepts apply to gay equality and free speech issues The first book was Do Ask Do Tell A Gay Conservative Lashes Back in 1997 The book was motivated by the early fight over gays in the military that ensued after President Clintons inauguration in 1993 There is a long narrative going back to my own expulsion from a civilian college and then my experience with the military draft which makes for a certain irony The book toward the end switches from historical and autobiographical accounts to policy discussions on discrimination in other areas which are presented in a manner concentric to the military issue as like a superstorm core One important concept is that individual rights are connected to the ability to share risks like availability for military service that belong to the common good In late 1998 I published a supplementary booklet less than a hundred pages called Our Fundamental Rights which does not carry the Do Ask Do Tell prefix In 2002 I published Do Ask Do Tell When Liberty Is Stressed a set of essays that respond to the issues accentuated by the 9 11 attacks and by new legal threats to Internet speech such as the 1998 Child Online Protection Act or COPA One idea that I covered in the book was a Bill of Rights II The latest book traces these widely dispersed issues centered around individualism further particularly in areas like various threats to Internet freedom that we take for granted gay equality including marriage and parenting the workplace and eldercare the latter driven by rapid demographic change The new book is in two parts Part 1 comprises a prologue and six nonfiction chapters about different problem areas with recreation of a variety of incidents at various points in my life However the sequence of narration is not chronological as it was in the first book Part 2 consists of three short stories The stories demonstrate some of the ideas in the nonfiction chapters One written in 1969 is a somewhat fictionalized account of my own Basic Combat Training experience in 1968 The second written in 1981 depicts two former college roommates reuniting and going on a trip through countryside heavily damaged by strip mining for coal The third written in 2013 presents another road trip this one more bizarre with the protagonist having gotten what he wants returns home to find a world besieged with an unusual catastrophe and ready to accept the idea of an instant family like it or not My ideas about how to process all the questions about individual rights have become more subtle and far more personal Back in the 1990s it was easy to say that social and political policy should be fiscally conservative yet socially liberal Libertarian positions of minimal government at all levels seemed to promote individual rights there was no legitimate reason for the state to concern itself with adults in the bedroom or even what they choose to put into their own bodies Of course even then as I discussed in the first book there were enormous practical tensions Even though there were plenty of

complaints that gays and singles were not treated equally in public policy in practice people without families often had much more discretionary income and much more time for their own pursuits In time it has become apparent that the disinclination of many people to have children at all can lead to enormous problems in the future in funding retirement income and health and custodial care In areas ranging from the epidemiology of HIV to the way bizarre and dangerous infectious diseases are incubated by agricultural practice in the developing world and in debates about vaccine policy it is apparent that

Amateur Media and Participatory Cultures Annamaria Motrescu-Mayes, Susan Aasman, 2019-01-23 Amateur Media and Participatory Cultures aims to delineate the boundary line between today's amateur media practice and the canons of professional media and film practice Identifying various feasible interpretative frameworks from historical to anthropological perspectives the volume proposes a critical language able to cope with amateur and new media's rapid technological and interpretative developments Conscious of the fact that amateur media continue to be seen as the benchmark of visual records of authentic rather than mass media derived events Annamaria Motrescu Mayes and Susan Aasman pay particular attention to the ways in which diverse sets of concepts of amateur media have now merged across global visual narratives and everyday communication protocols Building on key research questions and content analysis in media and communication studies they have assessed differences between professional and amateur media productions based on the ways in which the originators of an image have been influenced by or have challenged their context of production This proposes that technical skills degrees of staging and or censoring visual information and patterns in media socialisation define central differences between professional and amateur media production distribution and consumption The book's methodical and interdisciplinary approach provides valuable insights into the ways in which visual priming cultural experiences and memory building are currently shaped stored and redistributed across new media technologies and visual channels
