Fast Politics Laura Pérez Rastrilla, Pablo Sapag M., Armando Recio García, 2023-10-17 The goal of this book is to show the role of TikTok as a tool for political purposes To this end the authors analyse the messages posted on this social medium by political figures and institutions such as politicians and political parties their impact on political landscapes as well as the transformation of political communication techniques in order to suit the platform's features In the last two years the exponential growth of TikTok has led an increasing number of politicians and institutions to incorporate it into their communication strategies The platform displays some very different features from other social media that determine the way in which the content is presented In addition it manages to reach an audience that normally does not access or share political messages Within this context the volume pursues two main objectives First to examine how the communication techniques and the peculiarities of this social medium where short videos with actors in informal attitudes prevail affect the political message A second objective is to analyse the influence of the messages distributed through TikTok that redefine political scenarios and of the relationships of politicians and parties with voters The core of the book comprises case studies that are organised into three parts with nine chapters in all The authors are scholars and practitioners of political communication with diverse geographical representation who approach the topics from a range of methodological perspectives The first part addresses the state of the art and the influence of TikTok features on the way political communication is performed The second part discusses the influence of TikTok on electoral scenarios and political culture in India Bangladesh the United States and Ecuador Finally in the third part TikTok is analysed as an instrument for promoting far right politicians and parties in Europe as in the case of Matteo Salvini in Italy and AfD in Germany and Vox in Spain The volume is oriented to both scholars and communication professionals such as journalists communication consultants and speechwriters who want to become familiar with the platform learn about its political impact or wish to deepen their understanding of transformations in communication techniques and their adaptation to this growing social medium Chapter 2 The Moving Body as the Articulator Meme and Affective Link in Political Communication on TikTok is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Digital Empires Anu Bradford, 2023-08-28 In *Digital Empires* Anu Bradford examines the ideological origins societal implications and the relative global influence of three contrasting regulatory approaches towards the digital economy Throughout she compares the EU's approach with both the US based techno-libertarian model and China's authoritarian approach At a moment of time when digital societies are at an inflection point this book lays bare the choices we face as societies and individuals explains the forces that shape those choices and spells out the stakes involved in making those choices

Trafficking Data Aynne Kokas, 2023 In *Trafficking Data* Aynne Kokas looks at how technology firms in the two largest economies in the world the United States and China have exploited government policy and the lack thereof to gather information on citizens putting US national security at risk Kokas shows how US

corporations influence on tech regulation paved the way for exploitative data gathering not just by US corporations but by Chinese corporations as well To resolve this issue in the US requires changing foundational values not just in the tech ecosystem but in the relationship between industry and government in the United States Multidisciplinary Approaches to Ethics in the Digital Era Taskiran, Meliha Nurdan,Pinarbaşı, Fatih,2021-03-18 The digital era has redefined our understanding of ethics as a multi disciplinary phenomenon The newness of the internet means it is still highly unregulated which allows for rampant problems encountered by countless internet users In order to establish a framework to protect digital citizenship an academic understanding of online ethics is required Multidisciplinary Approaches to Ethics in the Digital Era examines the concept of ethics in the digital environment through the framework of digitalization Covering a broad range of topics including ethics in art organizational ethics and civil engineering ethics this book is ideally designed for media professionals sociologists programmers policymakers government officials academicians researchers and students

The Space of the World Nick Couldry, 2024-09-17 Over the past thirty years humanity has made a huge mistake We handed over to big tech decisions that have allowed them to build what has become our space of the world the highly artificial space of social media platforms where much of our social life now unfolds This has proved reckless and has huge social consequences The toxic effects on social life young people s mental health and political solidarity are well known but the key factor underlying all this has been missed the fact that humanity allowed business to construct our space of the world at all and then exploit it for profit In the process we ignored two millennia of political thought about the conditions under which a healthy or even a non violent politics is possible We endangered the one resource that is in desperately short supply in the face of catastrophic climate change solidarity Is human solidarity possible in a world of continuous digital connection and commercially managed platforms and what if it isn t In the first book of his trilogy Humanising the Future Nick Couldry offers a radical new vision of how to design our digital spaces so that they build rather than erode both solidarity and community This trenchant and vividly written book stresses that we cannot afford not to care for our space of the world We need to rebuild it together

Governing Cross-Border Data Flows Svetlana Yakovleva, 2024-02-27 Governing Cross Border Data Flows explores how the European Union can simultaneously reconcile and pursue two important legal and policy objectives namely protecting fundamental rights guaranteed under the EU Charter of Fundamental Rights EU Charter concerning privacy and personal data while also maintaining and developing a binding rules based global trading system to ensure appropriate access to foreign digital markets for EU businesses The book demonstrates a significant conflict between international trade law and European data privacy law when it comes to the governance of cross border flows of personal data To resolve the tensions caused by this clash the book proposes concrete and detailed ways to ameliorate the situation from both ends international trade and personal data protection specifically through reforms of both international trade and chapter V of the General Data Protection Regulation GDPR To explain how such reforms could be effectuated Yakovleva examines the role of discourse in the evolution of trade law in the last two decades The book also paves the way for the further research necessary to design a fully fledged reform proposal of the EU framework for the transfer of personal data outside the European Economic Area

The Politics of Combating Human Trafficking in the United States Nancy E. Marion, Kimberly J. Hufgard, 2025-03-04 This book examines political responses to the problem of human trafficking including proposals actions legislative and executive and statements made by politicians government agencies and civil society organizations to solve or mitigate the crime of human trafficking The objective is not just to recognize the nature and impact of human trafficking but

to understand the approaches used or recommended to solve the problem and the motivations behind such strategies The issue of human trafficking has become particularly important given the charged environment regarding border politics The book details the various policy options that have been proposed supported opposed or passed by US politicians over the past five to ten years This includes decisions made by presidents legislators national and state agencies and interest groups Court decisions on human trafficking policies and media coverage of events are also explored This political analysis is designed to help readers understand what motivated the proposals designed to address human trafficking and the impact those policies had or are having This book is ideal as a primary text for college courses in human trafficking and modern slavery or a supplemental text for a range of scholarly courses of study including human rights criminal justice law and political science It is recommended for anyone with an interest in human trafficking and what might be done to stop it
