Advancing Business Editing and Writing We once idolized tech entrepreneurs for creating innovations that seemed like
modern miracles Yet our faith has been shattered We now blame them for spreading lies breaking laws and causing chaos
Yesterday s Silicon Valley darlings have become today s Big Tech villains Which is it Are they superheroes or scoundrels Or is
it more complicated some blend of both In The Venture Alchemists Rob Lalka demystifies how tech entrepreneurs built
empires that made trillions Meta started as a cruel Halloween prank Alphabet began as a master s thesis that warned against
corporate deception and Palantir came from a campus controversy over hateful speech These largely forgotten origin stories
show how ordinary fears and youthful ambitions shaped their ventures making each tech tale relatable both wonderfully and
tragically human Readers learn about the adversities tech entrepreneurs overcame the troubling tradeoffs they made and the
tremendous power they now wield Using leaked documents and previously unpublished archival material Lalka takes readers
