Latin America Online: Cases, Successes and Pitfalls Gascó-Hernandez, Mila, 2007-02-28 Describes the state of the art in electronic government in Latin America Introduces the organizational technical and financial activities currently developed and the modernization and decentralization efforts carried out by the public administration to become more effective and transparent

The New Domestic Automakers in the United States and Canada A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path

and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide

Czinkota, Ilkka A. Ronkainen, Suraksha Gupta, 2021-09-16 Rigorously updated textbook that balances business theory and business practice Includes new cases studies and up to date examples The Offshoring of Engineering National Academy of Engineering, Committee on the Offshoring of Engineering, 2008-08-14 The engineering enterprise is a pillar of U S national and homeland security economic vitality and innovation But many engineering tasks can now be performed anywhere in the world The emergence of offshoring the transfer of work from the United States to affiliated and unaffiliated entities abroad has raised concerns about the impacts of globalization The Offshoring of Engineering helps to answer many questions about the scope composition and motivation for offshoring and considers the implications for the future of U S engineering practice labor markets education and research This book examines trends and impacts from a broad perspective and in six specific industries software semiconductors personal computer manufacturing construction engineering and services automobiles and pharmaceuticals The Offshoring of Engineering will be of great interest to engineers engineering professors and deans and policy makers as well as people outside the engineering community who are concerned with sustaining and strengthening U S engineering capabilities in support of homeland security economic vitality and innovation

Official Gazette of the United States Patent and Trademark Office ,2008 **America Ascendant** Stanley B. Greenberg, 2025-10-16 America is poised to lead the 21st Century as it led the 20th That will happen because the country is

at a tipping point in the battle for its own renewal a renewal that will allow America to be exceptional again Our economy is on the move fueled by revolutions in energy immigration innovation big data and advanced manufacturing America s energy independence has set off shockwaves Just as important are the social transformations that are making the country ever more racially and culturally diverse younger a home to immigrants and the metropolitan centers that foster a rising economic and cultural dynamism While most other countries struggle profoundly with immigration and religious and racial differences America s on a path to multicultural identity Those revolutions in the economy society and culture and are also producing a new American majority that embraces new values and new politics Republicans are waging a counter revolution and that is why America looks gridlocked and why the country is turning to Democrats to take on the country s growing challenges The economic and social transformations leave people struggling to earn enough and reach the middle class Families are under stress Government is corrupted by big money The American public is demanding the country address the dark side of our progress and reforms are starting to happen That is why Democrats will get to lead an era of reform and renewal comparable to the progressive era that mitigated the excesses of the Industrial Revolution In this incisive book expert strategist Greenberg draws on years of research and polling to illuminate how America is far from being gridlocked and he articulates a powerful vision of how American politics and America can be renewed
