OECD, 2024-05-02 There are signs that the global outlook has begun to brighten Activity remains more resilient than expected although with considerable divergence across economies inflation is falling steadily and unemployment remains low Global growth is projected to remain unchanged in 2024 and strengthen modestly in 2025 with inflation returning to target in most countries by the end of 2025 **Republic of Estonia** International Monetary, International Monetary Fund.

European Dept., 2023-07-28 Estonia has made remarkable progress over the past two decades achieving steady convergence towards more advanced EU economies However signs of erosion in external performance have emerged in recent years reflecting rapid growth in unit labor cost and real exchange rate appreciation Russia's invasion of Ukraine triggered a large rise in inflation supply chain disruptions and slower growth in key trading partners in the Baltic region In Estonia these developments combined with fiscal tightening in 2022 have led to a sharp economic downturn while deceleration in productivity has exacerbated competitiveness erosion OECD Economic Outlook, Volume 2024 Issue 2 OECD, 2024-12-04

The global economy remains resilient despite differences in the strength of activity and incomes across countries and sectors Inflation has continued to fall supporting real incomes but consumer confidence is yet to recover to pre pandemic levels in many countries Global growth is projected to be 3.2% this year and 3.3% in 2025 and 2026 with inflation easing further Nonetheless the outlook is highly uncertain An intensification of geopolitical tensions or global trade restrictions could hamper further disinflation and weaken the growth outlook At the same time future shocks could trigger disruptive corrections in financial markets magnified by high debt and stretched asset valuations The key policy priorities are to ensure

a continued and lasting decline in inflation enhanced efforts to establish a credible fiscal path that will secure debt sustainability and ambitious reforms to raise sustainable and inclusive growth in the medium term This issue includes an assessment of the global economic situation a chapter on developments in labour shortages and associated policy considerations and a chapter summarising developments and providing projections for each individual country Coverage is provided for all OECD members as well as for selected partner economies *J.K.
