walking time bomb Ultimately only I could make the decision to lose weight and once I did everything else fell into place The hardest thing was simply to make the COMMITMENT TO DO SO I Stayed True to Three Unconventional Principals I was going to Eat What I Liked I Wasn't going to Exercise I Wasn't going to Pay For Advice The little digital scale validated my efforts Now everyone wants to know my secret formula but only after witnessing the results as I have managed to lose 80 Pounds in One Year The word that best described what I did was to persevere I felt like throwing in the towel a bunch of times but I kept going forward and the diet became easier by the day Dieting is a matter of being on a routine and chances are if you have read this far yours is most likely unbalanced as mine was Once you make up your mind you too can do the same as I did and lose the weight I have taken the Yo out of Yo Yo Dieting I continue to eat the foods I like so there is no transitioning into anything
