Gaming Democracy Adrienne L. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism

The Perilous Public Square David E. Pozen, 2020-06-16 Americans of all political persuasions fear that free speech is under attack This may seem strange at a time when legal protections for free expression remain strong and overt government censorship minimal Yet a range of political economic social and technological developments have raised

profound challenges for how we manage speech New threats to political discourse are mounting from the rise of authoritarian populism and national security secrecy to the decline of print journalism and public trust in experts to the fake news trolling and increasingly subtle modes of surveillance made possible by digital technologies The Perilous Public Square brings together leading thinkers to identify and investigate today's multifaceted threats to free expression They go beyond the campus and the courthouse to pinpoint key structural changes in the means of mass communication and forms of global capitalism Beginning with Tim Wu's inquiry into whether the First Amendment is obsolete Matthew Connolly Jack Goldsmith Kate Klonick Frederick Schauer Olivier Sylvain and Heather Whitney explore ways to address these dangers and preserve the essential features of a healthy democracy Their conversations with other leading thinkers including Danielle Keats Citron Jelani Cobb Frank Pasquale Geoffrey R Stone Rebecca Tushnet and Kirsten Weld cross the disciplinary boundaries of First Amendment law internet law media policy journalism legal history and legal theory offering fresh perspectives on fortifying the speech system and reinvigorating the public square

Making Domesday Stephen Baxter, Julia Crick, C. P. Lewis, 2025-04-12 Making Domesday presents a fresh interpretation of William the Conqueror's survey of England made possible by a major collaborative study and a new online edition of Exon Domesday the earliest of the three original manuscripts to survive from the Domesday survey The book addresses big questions about pre modern government written records and the use of intelligence in both senses the minds behind the planning and execution of Domesday and the information about England that Domesday gathered It characterizes Exon as the surviving part of the working papers of one of the writing offices that over a period of ten weeks in summer 1086 dealt with all seven circuits regional groupings of shires of the Domesday survey The circuit offices had the task of recasting the manorial descriptions assembled in an earlier stage of the survey into an interim form intended for further redaction as Great Domesday Book by rearrangement rewording and abbreviation A new deep understanding of the codicology and palaeography of Exon underpins every part of the analysis and offers a model of documentary production for royal government at an exceptionally early period in western Europe Part I describes and analyses each Exon text in unprecedented detail Part II places Domesday in context and in broad comparative perspective ranging across and beyond the Latin West The dual approach provides a new interpretation of Domesday and a deeper understanding of both the Domesday survey and Domesday Book It emerges that the survey was even more complex than we had dared to imagine involving the production of different kinds of text intended to meet a range of fiscal and political needs It is also clear that the survey was immediately effective transforming the politics of land in a newly conquered society Domesday has always

been thought awesome as its very name shows Making Domesday contends that it was also a feat of intelligent government deployed by an aggressive and ambitious regime As such it speaks to broader concerns with the colonial domination of conquered societies through the purposeful collection of systematic statistical information Research Anthology on Feminist Studies and Gender Perceptions Management Association, Information Resources,2022-01-21 Global society has always been impacted by the perception of gender While gender roles may differ in certain cultures many cultures around the world have allowed for the disempowerment and objectification of women Women today still struggle for gender equality whether it be professionally socially or even legally To examine feminism thoroughly however thorough analysis must be conducted on all genders and perceptions The Research Anthology on Feminist Studies and Gender Perceptions explores the application of feminist theory and women empowerment in the 21st century and the role that gender plays in society This book analyzes media representation gender performativity and theory to present a comprehensive view of gender and society Covering topics such as masculinity women empowerment and gender equality this two volume comprehensive major reference work is an essential resource for sociologists community leaders human resource managers activists students and professors of higher education researchers and academicians *The Reports of Sir Edward Coke, Kt. Designing for Democracy Jennifer Forestal, 2022 How should we fix digital technologies to support democracy instead of undermining it In Designing for Democracy Jennifer Forestal argues that accurately evaluating the democratic potential of digital spaces means studying how the built environment a primary component of our modern public square structures our activity shapes our attitudes and supports the kinds of relationships and behaviors democracy requires While many scholars and practitioners are attentive to the role of design in shaping behavior they have yet to fully engage with the question of what structures are required to support democratic communities and how to build them Forestal closes this gap by providing a new theory of democratic space Drawing from a wide range of disciplines including architecture psychology and the history of political thought she argues that democratic spaces must be designed with three environmental characteristics boundaries durability and flexibility that taken together afford users the ability to engage in fundamental civic practices Through extended analyses of Facebook Twitter and Reddit Forestal shows precisely how well these digital platforms meet the criteria for democratic spaces or whether they do so at all The result is a more nuanced analysis of the democratic communities that form or fail to emerge in these spaces as well as more concrete suggestions for how to improve them In connecting the built environment digital technologies and democratic theory Designing for Democracy provides blueprints for democracy in a digital age Youth Digital Health and Online Platforms Martyna Gliniecka, 2024-12-27 Youth Digital Health and Online Platforms focuses on young people's use of the digital platform Reddit for health Drawing upon dialogism theory the book

Somerset Record Society, 1891 Annual report and list of subscribers in each vol except v 10 14 Update Culture and the Afterlife of Digital Writing John R Gallagher, 2020-02-03 Update Culture and the Afterlife of Digital Writing explores neglected circulatory writing processes to better understand why and how digital writers compose revise and deliver arguments that undergo sometimes constant revision John R Gallagher also looks at how digital writers respond to comments develop a brand and evolve their arguments all post publication With the advent of easy to use websites ordinary people have become internet writers disseminating their texts to large audiences Social media sites enable writers audiences to communicate back to the them instantly and often Even professional writers work within interfaces that place comments

adjacent to their text privileging the audience's voice. Thus writers face the prospect of attending to their writing after they deliver their initial arguments. *Update Culture and the Afterlife of Digital Writing* describes the conditions that encourage published texts to be revisited. It demonstrates through forty case studies of Amazon reviewers, redditors and established journalists how writers consider the timing, attention and management of their writing under these ever-evolving conditions. Online culture from social media to blog posts requires a responsiveness to readers that is rarely duplicated in print and requires writers to consistently reread, edit and update texts, a process often invisible to readers. This book takes questions of circulation online and shows via interviews with both writers and participatory audience members that writing studies must contend with writing's afterlife. It will be of interest to researchers, scholars and students of writing studies and the fields of rhetoric, communication, education, technical communication, digital writing and social media as well as all content creators interested in learning how to create more effective posts, comments, replies and reviews.
