Trajectories, 2019-02-11 Trajectories: The Educational and Social Mobility of Educators from the Poor and Working Class is a collection of mobility narratives of critical scholars in education from poor and working class backgrounds. While Americans have long held deep seated cultural beliefs in the capacity of schooling to level unequal playing fields there has been little research on the psycho social processes of social and educational mobility in the United States. Rising Up employs narrative research methodologies to interrogate the experiences of class border crossing via success in school. This volume addresses two discourses within education. First the experiences of those who have crossed class boundaries contribute to a deeper understanding of how social class functions in the United States. The narratives compiled in this volume explore class within the lives of young people on the margins as identities ambition and achievement are constructed and negotiated in school. More specifically the volume suggests new directions for policy and practice to counteract classism in schools and in the broader culture. As they write of the constraints that they circumvented to succeed against the odds these authors complicate

notions of opportunity as the inevitable reward for high achievement As they write of agency and tenacity they will illuminate cultural strengths that likely were invisible to teachers and peers As critical scholars of education the contributors to this volume speak specifically to ways in which teacher education can and should address issues of class *Out of the Labyrinth* Robert Kaplan, Ellen Kaplan, 2014-02-04 In this sparkling narrative mathematics is indeed set free Michael Shermer author of *The Believing Brain* In classrooms around the world Robert and Ellen Kaplan's pioneering Math Circle program begun at Harvard has introduced students ages six to sixty to the pleasures of mathematics exploring topics that range from Roman numerals to quantum mechanics In *Out of the Labyrinth* the Kaplans reveal the secrets of their highly successful approach which embraces the exhilarating joy of math's accessible mysteries Stocked with puzzles colorful anecdotes and insights from the authors own teaching experience *Out of the Labyrinth* is both an engaging and practical guide for parents and educators and a treasure chest of mathematical discoveries For any reader who has felt the excitement of mathematical discovery or tried to convey it to someone else this volume will be a delightful and valued companion **Teaching is a Human**

Interaction Alexis L. Jones, 2023-03-01 This book contains an argument supported by education philosophers as well as composite stories data and personal experiences The author mentions a number of scholars e g Benjamin 1988 Buber 1970 Noddings 2005 2013 Palmer 1983 van Manen 1986 1991 2000 who address important human issues in the field of education and she ties their work and hers to show common themes within the issues of care responsivity and relational ethics The first part of the book Introduction and Chapters 1 3 is primarily philosophical and the author shares the thoughts of the aforementioned scholars and others on topics relating to the very human work teachers do The next section of the book Chapters 4 6 combines theoretical works and empirical data to address the complexity and humanity of teaching While the work described in the aforementioned chapters may appear to present an idea of ethical teacher perfection this is not the case Teachers are not supposed to be nor are they logistically able to be all things to all children The final chapter instead addresses how stakeholders e g educators administrators parents can gently move our traditional education system toward this ideal This conclusion shares the ways teachers and teacher educators can conceptualize the work on teaching as human interaction and use it to improve the teaching perception **ENDORSEMENTS** Readers of this superb book will be convinced by the end of it that kindness and care are fundamental to good teaching Based on vast teaching experience and a philosophy of care ethics Alexis Jones portrays teaching as a far messier human interaction than is ever formally recognized Using scholarly debate and wonderfully narrated examples the book advocates an ethics of care for teachers navigating interminable choices in almost every moment But beware thinking that teaching the Alexis Jones way is a soft option Quite the contrary striving similarly for academic attainment and caring teacher student relationships involves challenging endeavors for both teacher and student alike David Walker The University of Alabama **PC Mag** , 1990-07 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert

industry analysis and practical solutions help you make better buying decisions and get more from technology **He Opens He's Eyes and He Closes He's Eyes** Terri Powers, 2007-02-16 Detailed in this book are the incidents which are often filed in a child's mind unknown to the adults around them. Mostly these are the misunderstandings of things a kid sees or hears often taken literally and mulled over in their heads for years either until the kid brings it up and has it explained to him or gets older and figures it out on his own. And in many cases the adults who were originally involved don't find out about the kid's confusion for years to come. Adults often do have their own ways of wording things and most often don't realize that a completely different picture is forming in their child's brain many times an impossible scene. I call these scenes Kiddie Perceptions. And also there are the times when an adult will take on the characteristics of a kid and just act silly for the thrill of it. This is another form of a Kiddie Perception often referred to as a second childhood. Added to this are the times when an adult tries something hoping for the easy way out of a situation when they should know better. It always has a way of catching up to them though. All of these types of Kiddie Perceptions are laid out for you to see inside. And all of the enclosed Kiddie Perceptions are true. Don't try this at home unless you're a kid or don't know any better *How to Wrestle a Girl* Venita Blackburn, 2021-09-07 A Paris Review Staff Pick and an Amazon Editors Pick Finalist for the 2022 Lambda Literary Award for Lesbian Fiction and the Ernest J Gaines Award for Literary Excellence and longlisted for the 2022 Joyce Carol Oates Prize. Bold, witty, ominous, and vulnerable, *How to Wrestle a Girl* shines in its propensity to magnify small moments, challenge our presumptions, and dissect the beauty, danger, and wonder of girlhood. The New York Times Book Review: Hilarious, tough, and tender stories from a far-seeing star on the rise. Venita Blackburn's characters bully and suffer, spit and tease, mope and blame. They're hyperaware of their bodies and fiercely observant, fending off the failures and advances of adults with indifferent ease. In Biology Class, they torment a teacher to the point of near insanity; while in Bear Bear Harvest™ they prepare to sell their excess fat and skin for food processing. Stark and sharp, hilarious and ominous, these pieces are scabbed, bruised, and prone to scarring. Many of the stories set in Southern California follow a teenage girl in the aftermath of her beloved father's death and capture her sister's and mother's encounters with men of all ages, as well as the girl's budding attraction to her best friend Esperanza. In and out of school, participating in wrestling and softball, attending church with her hysterically complicated family, and dominating boys in arm wrestling, she grapples with her burgeoning queerness and her emerging body becoming wary of clarity rather than hoping for it. A rising star, Blackburn is a trailblazing stylist, and in *How to Wrestle a Girl*, she masterfully shakes loose a vision of girlhood that is raw, vulnerable, and never at ease Misfits and Good Kids: It Gets Worse Epiphany Thomas, **Resources in Education** , 1993-07 *MyPyramid for kids* , 2005
