TIK TOK

TikTok, the social media platform that has taken the world by storm, began its journey in September 2016. It was originally launched in China under the name Douyin by the company ByteDance. In just a few short years, it has become a global sensation, captivating users of all ages, but especially appealing to the younger generation.

The origins of TikTok can be traced back to the idea of short-form video sharing. ByteDance recognized the potential of creating a platform where users could express themselves in 15-60 second video clips. TikTok was introduced to the international market in September 2017 and merged with the lip-syncing app Musical.ly in 2018, effectively increasing its user base. This merger allowed the platform to flourish with an even larger pool of creative content creators.

TikTok's meteoric rise to popularity can be attributed to several factors. Firstly, its interface is user-friendly, making it easy for anyone to create and share content. The app offers a wide range of music, special effects, and filters, which adds to the creative potential for users. It also encourages collaboration through duets and reactions, allowing for the creation of unique

Centering Multilingual Learners in School Curriculum through Community Asset Mapping Ching-Ching Lin, Huseyin Uysal, 2025-05-27

Centering Multilingual Learners in School Curriculum through Community Asset Mapping is written for educators working with culturally and linguistically diverse student populations, particularly those from historically marginalized backgrounds. It presents and explores Community Asset Mapping (CAM) as a transformative pedagogical approach that values students' lived experiences, cultural wealth, and linguistic repertoires as essential components of learning. It speaks to teachers who seek to integrate students' strengths and assets into the curriculum while challenging hierarchical structures of knowledge and language within the education system. Written by two multilingual language education professionals who draw upon their own educational journeys and rich, multifaceted experience working with multilingual learners, this book is also grounded in a post-qualitative research approach. It weaves together culturally responsive teaching, translanguaging, and community asset mapping as a co-learning practice alongside a diverse range of critical theories and pedagogical approaches. This resource extends beyond academic scholarship; it engages with community-based initiatives, social entrepreneurship, and lived experiences to offer both a holistic perspective and a practical, action-oriented approach. Through this lens, the authors aim to equip educators with the tools to transform classrooms into more equitable and justice-driven learning spaces. Throughout the book, numerous examples and practical resources are offered to bring these ideas to life, demonstrating how CAM can be implemented in the classroom as a powerful

and enriching teaching strategy More than just a resource this book is a call to action an invitation for educators to embark on a collaborative journey It embraces vulnerability emphasizes co learning and celebrates the communities that shape the work of language education professionals Through this shared effort the authors invite educators to join them in critically reimagining education and advocating for more equitable asset based practices that truly honor the voices and experiences of their students Perfect for courses such as Multicultural and multilingual Education Sociolinguistics Methods and Materials in TESOL Education Curriculum Design in Education or TESOL Language Culture and Society Urban Education Family Engagement in Education *Research Anthology on Fandoms, Online Social Communities, and Pop Culture* Management Association, Information Resources,2022-01-28 The internet has grown to become one of the largest communication hubs in history With its ability to share content and create community bonds it has seen many fandoms and online social communities develop within the past decades While there are some detriments to these communities there are also many benefits and potential uses for the betterment of society The Research Anthology on Fandoms Online Social Communities and Pop Culture explores the ways in which the internet has presented itself as a platform for communities to gather This essential reference source discusses the engagement of these communities social media use and the uses of these communities for education Covering topics such as digital communities transmedia language learning and digital humanities this book is a vital tool for educators of K 12 and higher education digital folklorists sociologists communications researchers online administrators community leaders and academicians **Connecting Ideas, Cultures, and Communities** Clive Barstow,Holger Briel,2025-03-03 The proceedings of the Second International Symposium on Humanities and Social Sciences ISHSS 2024 provide a rich repository of scholarly articles that explore the intricate links between ideas cultures and communities This volume captures the essence of interdisciplinary research offering fresh perspectives on the challenges and opportunities within the social sciences Spanning a wide array of topics from historical analysis to contemporary sociological studies the proceedings delve into the main findings of the symposium With a focus on regional development political policies and the impact of technology on education these papers illustrate a commitment to advancing understanding and fostering global dialogue Designed for academics researchers and professionals in the fields of humanities and social sciences this publication is ideal for those seeking to expand their knowledge engage with current research and contribute to the ongoing discourse on the pressing issues of our time
