High-Stakes Leadership Constance Dierickx, 2017-09-22 What makes some leaders so effective when the stakes are high while others fall short Why are some able to not only survive but to lead their organizations to new heights even in risky fast changing times The answer is succinct but multi layered such leaders display courage judgment and fortitude High stakes leadership does not require unnatural powers nor is it predicated on a dangerous situation The three signature character traits can be

cultivated by anyone at any level in any organization big or small Organizational and leadership consultant Constance Dierickx describes high stakes leadership in a simple three part model that illuminates the mindsets strategies and tactics leaders must draw upon to make tough decisions take an unpopular stand or ignore convention providing real world examples across a range of sectors and industries Dierickx developed her model of high stakes leadership to help her clients executives at organizations ranging from start ups to nonprofits to large global companies better define what they need to bring strategy to life This she found is the great gulf in business the vast space between idea and results High Stakes Leadership helps leaders sharpen their ability to act decisively with clarity and focus test ideas using reason and course correct as needed be resolute and inspire others to continue even in the face of challenges Leading requires the courage to make conscious decisions about what to do the judgment to separate information from short term trends and the fortitude to remain true to oneself and one's mission When leaders do these things they also become teachers leading their teams by example often without realizing it The essential aspects of good leadership endure even as the environment and tactics change Indeed courage judgment and fortitude are not merely tools for survival they are the means by which we sculpt the future

BOOK 2 POISONED PIN Former Olympian and Arizona native Brenna Battle's crazy dream of running her very own judo school for kids in tiny historic Bonney Bay isn't exactly off to a great start. She has a grand total of one student signed up but she's determined to succeed even if it means going door to door. Brenna's search for judo recruits takes her inside the infamous haunted Reiner House where she befriends a confused old man named Harvey and finds herself at the scene of the second murder since her arrival in Bonney Bay. Brenna butts heads with Will Riggins AKA Officer Dimples when the poisoning of Derek Thompson is pinned on his uncle Harvey Thompson. Harvey claims the ghosts of Reiner House are responsible. Brenna, busy battling the ghosts of her past failures and heartaches as she tries to get her business off the ground, is determined to prove there's an earthly explanation for Derek's murder. Her suspicious death has the whole town thrown off. Amid the cupcakes and chili dogs and the bombs bursting in air, Brenna must risk everything, including her budding relationship with Will, to find a killer before time runs out.

How Cities Will Save the World Ray Brescia, John Travis Marshall, 2016-06-03. Cities are frequently viewed as passive participants to state and national efforts to solve the toughest urban problems. But the evidence suggests otherwise. Cities are actively devising innovative policy solutions and they have the potential to do even more. In this volume, the authors examine current threats to communities across the U.S. and the globe. They draw on first-hand experience with and accounts of the crises already precipitated by climate change, population shifts, and economic inequality. This volume is distinguished, however, by its central objective of traveling beyond a description of problems and a discussion of their serious implications. Each of the thirteen chapters frames specific recommendations and guidance on the range of core capacities and interventions that 21st Century cities would be prudent to consider in mapping their immediate and future responses to these critical problems. *How Cities Will Save the World* brings together authors with frontline experience in the fields of city redevelopment, urban infrastructure, healthcare, planning, immigration, historic preservation, and local government administration. They not only offer their ground-level view of threats caused by climate change, population shifts, and economic inequality but they provide solution-driven narratives identifying promising innovations to help cities tackle this century's greatest adversities.
