Participation by 16-19 year olds in education and training Great Britain: Parliament: House of Commons: Education Committee, 2011-07-19 The Education Committee accepts that changes to student support needed to be made but says that the delay in deciding on allocations and the guiding principles for distribution should not have been allowed to happen The report states that the Government should have done more to acknowledge the Educational Maintenance Allowance's EMA combined impact on participation attainment and retention before it decided how to restructure financial support The bursary scheme which is to replace the EMA will inevitably lead to inconsistencies which could distort young people's choices of where to study It is not persuaded that bursaries administered by schools and colleges will necessarily be fairer or more discriminating than a slimmed down more targeted entitlement such as the EMA The report also highlights the difficulty of transferring data between schools and colleges and encourages the Department for Education to do more to ensure that information about pupils' needs can move easily between educational institutions The Committee supports the Government's focus on Apprenticeships but urges it to protect quality at the same time as increasing numbers participating It also urges

the Department for Education to fund the National Careers Service to provide face to face careers advice for young people

Child Cultures, Schooling, and Literacy Anne Haas Dyson, 2016-02-19 Through analysis of case studies of young children ages 3 to 8 years situated in different geographic cultural linguistic political and socioeconomic sites on six continents this book examines the interplay of childhoods schooling and literacies Written language is situated within particular childhoods as they unfold in school A key focus is on children s agency in the construction of their own childhoods The book generates diverse perspectives on what written language may mean for childhoods Looking at variations in the complex relationships between official curricular visions and unofficial child initiated visions of relevant composing practices and appropriate cultural resources it offers first insight into how those relationships may change over time and space as children move through early schooling and second understanding of the dynamics of schools and the experience of childhoods through which the local meaning of school literacy is formulated Each case each child in a particular sociocultural site does not represent an essentialized nation or a people but rather a rich processual depiction of childhood being constructed in particular local contexts and the role if any for composing

Digital Childhoods Susan J. Danby, Marilyn Flear, Christina Davidson, Maria Hatzigianni, 2018-04-03 This book highlights the multiple ways that digital technologies are being used in everyday contexts at home and school in communities and across diverse activities from play to web searching to talking to family members who are far away The book helps readers understand the diverse practices employed as children make connections with digital technologies in their everyday experiences In addition the book employs a framework that helps readers easily access major themes at a glance and also showcases the diversity of ideas and theorisations that underpin the respective chapters In this way each chapter stands alone in making a specific contribution and at the same time makes explicit its connections to the broader themes of digital technologies in children s everyday lives The concept of digital childhood presented here goes beyond a sociological reading of the everyday lives of children and their families and reflects the various contexts in which children engage such as preschools and childcare centres

Powerful Literacy in the Montessori Classroom Susan Zoll, Natasha Feinberg, Laura Saylor, 2023 Teaching reading successfully requires deep knowledge of the reading process and development as well as the implementation of impactful reading instruction and differentiation This book aligns Montessori didactic materials and pedagogy developed over a century ago with current research on reading development Readers will gain a solid overview of the Montessori philosophy and method specifically those related to reading and language development enabling them to support their practice in today s educational context while inspiring the wider field of education The authors explain how the Montessori approach is inherently aligned with the Science of Reading in that they are both scientifically based and contain methods that follow a logical systematic and explicit progression of teaching and learning Montessori education supports instructional differentiation that is cognizant of children s need for independence and highly mindful of literacy and language development This book provides valuable contributions
