Carmichael,2020-03-17 Most people wake up and drive to a job that they hate Think about your five closest friends Are they happy Do they live their lives with purpose Do you We put on a fake front for what we want people to see and think about us but the reality is most people aren't happy We're lost We settle We aren't happy with where we are You can't be happy if you don't know your purpose It's not possible You want more but you don't even know where to start You know there is more out there You see others having success and you want it too there is nothing wrong with that You just need help finding your purpose so you can find the success you see all around you You can be productive crush your goals pretend that all the things that you've acquired actually mean something but at the end of the day if you don't know your purpose you'll always feel like there's something missing You'll know that you're capable of more and that you're not living the life you should be You might be fooling the world but you're not fooling the person looking back at you in the mirror You need to find your actual power source Your purpose is your source of power Once you find your purpose it'll fuel you for life You'll do things that you never thought you were capable of Achieving your purpose will force you to morph into a stronger version of yourself You'll have to push through fears insecurities and doubts that held you back But somehow it'll all feel possible and necessary because you're purpose driven now and that's the only thing you'll ever need **Fitbit For Dummies** Paul McFedries,2019-07-11 Take a
