Soil Health Restoration and Management Ram Swaroop Meena, 2019-08-23 Meeting the food requirements of an ever increasing population is a pressing challenge for every country around the globe Soil degradation has a negative impact on food security by reducing the cultivated land areas while at the same time the world population is predicted to increase to 9.2 billion in 2050 Soil degradation adversely affects soil function and productivity and degraded soils now amount to 6 billion ha worldwide The major factors are salinization erosion depletion of nutrients due to exhaustive agricultural practices and contamination with toxic metal ions and agrochemicals which reduces the activity of soil microbe In addition poor soil management also decreases fertility As such measures are required to restore the soil health and productivity organic matter beneficial microorganisms and nutrient dynamics can all improve the physical chemical and biological properties of soil Understanding the role of soil health restoration and management in sustainability and nutritional security calls for a holistic approach to assess soil functions and examine the contributions of a particular management system within a defined timescale Further best management practices in cropping systems are important in ensuring sustainability and food and nutritional security without compromising the soil quality and productivity potential Rational soil management practices must allow environmentally and economically sustainable yields and restoration of soil health

Social Media: A Blessing and A Curse Ayman Kaddoura, This book seeks to scrutinize the concept of social media and bring to light all the parts of it that have been covered up by shadows We can never truly know a thing until we take out time to understand and this is a principle I believe needs to be applied to social media For so long we have gone with the flow accepting the words of those at the top as gospel without understanding that all their words and actions are tailored to suit their own needs and for this reason they can seldom tell us the full truth Through this book I also want to open your eyes to unending opportunities available to you through this social media those things that you have overlooked as being too good to be true or have just never had the time to dig deeper to understand their inner workings I believe that only reveals a thing in its full form to those who actively seek to find it and that is why you can never completely know until you desire and actively seek to I hope that your journey through the pages of this book brings you enlightenment and that

through it the eyes of your understanding be opened to those things that have been lurking in the dark I also hope that your unasked questions will be answered and by the end of this experience you emerge at the other side with a completely different and better perspective about life and all that it entails
