Understanding Written Expression Using SAS presents an overview of text analytics and the critical role SAS software plays in combining linguistic and quantitative algorithms in the evolution of this dynamic field. Drawing on over two decades of experience in text analytics, authors Barry deVillie and Gurpreet Singh Bawa examine the evolution of text mining and cloud-based solutions and the development of SAS Visual Text Analytics. By integrating quantitative data and textual analysis with advanced computer learning principles, the authors demonstrate the combined advantages of SAS compared to standard approaches and show how approaching text as qualitative data within a quantitative analytics framework produces more detailed, accurate, and explanatory results. Understand the role of linguistics, machine learning, and multiple data sources in the text analytics workflow. Understand how a range of quantitative algorithms and data representations reflect contextual effects to shape meaning and understanding. Access online data and code repositories, videos, tutorials, and case studies. Learn how SAS extends quantitative algorithms to produce expanded text analytics capabilities. Redefine text in terms of data for more accurate analysis. This book offers a thorough introduction to the framework and dynamics of text analytics and the underlying principles at work and provides an in-depth examination of the interplay between qualitative linguistic and quantitative data-driven aspects of data analysis. The treatment begins with a discussion on expression parsing and detection and provides insight into the core principles and practices of text parsing, theme and topic detection. It includes advanced topics such as contextual effects in numeric and textual data manipulation, fine-tuning text meaning, and disambiguation. As the first resource to leverage the power of SAS for text analytics, *Text as Data* is an essential resource for SAS users and data scientists in any industry or academic application.
