achieving its vision to be an Islamic world class university The conference raises the issue of democracy and social transformation to capture the social and political dynamics The selection of this topic is based on the idea that technological development is becoming a crucial issue within modern society in which people tend to experience alienation within the rapid social and political transformation Democracy as a political system that ensures transparency citizen participation and human rights protection is now under threat Having the fact that there is a growing tendency of using transactional politics to win political interests such as the use of money and identity in political processes therefore political analysts consider this situation as the regression of democracy Rapid social and cultural transformation as a consequence of advanced technology creates problems in modern society On one hand technology has made the life of people easier However on the other hand the sense of humanity's values and principles is declining This situation can be observed in the decrease in social solidarity and the rise of individualism Modernity that values productivity and economic growth has brought a negative impact on the life of human being and nature The exploitative character of industrialization has created an ecological crisis Advanced information technology has loosened social cohesivity and the rise of instrumental rationality has removed local genius or local wisdom from the life of society Since the ultimate goal of humanity is respecting the dignity of human beings hence bringing back humanity to the center of the development program is crucial especially in the current social and political dynamics In the political context humanity means respecting the basic rights of the citizen and putting them as a subject of political development and not perceiving citizens as only an instrument to win political power Based on the above background this conference is organized The overall goal of the conference is to mainstream humanity in the current social and political change The conference is also expected to be an arena for scholars and experts in social and political science as well as practitioners and policymakers to meet and exchange ideas and perspectives for a better future of our society

Recent Advances in Computing Sciences Sophiya Sheikh, Manmohan Sharma, Amar Singh, 2023-12-21 The 1st International Conference on Recent Advances in Computing Sciences RACS 2022 organized by the School of Computer Application Lovely Professional University Jalandhar Punjab from 4th to 5th November 2022 The conference focuses on discussing issues exchanging ideas and the most recent innovations towards the advancement of research in the field of Computing Sciences and Technology All technical sessions were predominantly related to Data Science Artificial Intelligence Remote Sensing Image Processing Computer Vision Data Forensics Cyber Security Computational Sciences Simulation Modelling Business Analytics and Machine Learning The main objective of this conference is to provide a common platform for academia and industry to discuss various technological challenges and share cognitive thoughts It provided a thought provoking platform to discuss and disseminate novel solutions for real world problems in a dynamic and changing technological environment The main success of RACS 2022 is to give an opportunity for the participants to enhance their knowledge of recent computing technologies *Proceedings of International Conference on Cognition and Recognition* D. S.

Guru,T. Vasudev,H.K. Chethan,Y.H. Sharath Kumar,2017-10-04 The book covers a comprehensive overview of the theory methods applications and tools of cognition and recognition The book is a collection of best selected papers presented in the International Conference on Cognition and Recognition 2016 ICCR 2016 and helpful for scientists and researchers in the field of image processing pattern recognition and computer vision for advance studies Nowadays researchers are working in interdisciplinary areas and the proceedings of ICCR 2016 plays a major role to accumulate those significant works at one place The chapters included in the proceedings inculcates both theoretical as well as practical aspects of different areas like nature inspired algorithms fuzzy systems data mining signal processing image processing text processing wireless sensor networks network security and cellular automata Recent Advances in Computational Intelligence and Cyber Security

Ashok Kumar Singh,Zeeshan Ali Siddiqui,Siddharth Singh,Amit Kumar Singh,Tanveer J. Siddiqui,2024-07-08 In the ever accelerating tapestry of our digital age the symbiotic relationship between computational intelligence and cyber security has become the linchpin of progress The relentless pace of technological evolution and the ceaseless emergence of cyber threats demand not only adaptation but also an exploration of the forefronts of innovation and defence Recent Advances in Computational Intelligence and Cyber security is a testament to the exhilarating journey undertaken by researchers practitioners and visionaries in these pivotal fields Within the confines of this book we embark on a captivating exploration of the cutting edge developments that define the current state of computational intelligence and the intricate dance with the ever evolving landscape of cyber security Proceeding of the International Conference on Computer Networks, Big Data and IoT (ICCB - 2018)

A. Pasumpon Pandian,Tomonobu Senjyu,Syed Mohammed Shamsul Islam,Haoxiang Wang,2019-07-31 This book presents the proceedings of the International Conference on Computer Networks Big Data and IoT ICCBI 2018 held on December 19 20 2018 in Madurai India In recent years advances in information and communication technologies ICT have collectively aimed to streamline the evolution of internet applications In this context increasing the ubiquity of emerging internet applications with an enhanced capability to communicate in a distributed environment has become a major need for existing networking models and applications To achieve this Internet of Things IoT models have been developed to facilitate a smart interconnection and information exchange among modern objects which plays an essential role in every aspect of our lives Due to their pervasive nature computer networks and IoT can easily connect and engage effectively with their network users This vast network continuously generates data from heterogeneous devices creating a need to utilize big data which provides new and unprecedented opportunities to process these huge volumes of data This International Conference on Computer Networks Big Data and Internet of Things ICCBI brings together state of the art research work which briefly describes advanced IoT applications in the era of big data As such it offers valuable insights for researchers and scientists involved in developing next generation big data driven IoT applications to address the real world challenges in building a smartly connected environment

The Enigmatic Realm of **Gmail Review**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Gmail Review** a literary masterpiece penned by a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of people who partake in its reading experience.
