Formalizing Data-Centric Web Services Iman Saleh,2015-11-04 This book presents a methodology to model and specify the data aspect of Web services as it is overlooked by current standards for specifying Web services The formal specification enables verification of service behavior and the proposed methodology is based on formal methods and design by contract techniques The Web has evolved from an information sharing medium to a wide scale environment for sharing capabilities or services Currently URLs

not only point to documents and images but are also used to invoke services that potentially change the state of the Web. Major online organizations today such as Amazon, PayPal, and FedEx provide services for users and consumers. They also allow third party vendors to resell their services. In both cases this requires precise and complete specification of service offerings. Several online discussions demonstrate the challenges faced by these organizations and others while describing their data centric Web services. These challenges surrounding data specification can lead consumers to use a service erroneously. Case studies demonstrate how formal methods and specifically design by contract techniques can be leveraged to address the lack of formal specification of data when it comes to developing Web applications such as Amazon and PayPal.

of Strategy David Besanko, David Dranove, Mark Shanley, Scott Schaefer, 2009-09-22 In today's global recession, strong management of firms and organizations are of the utmost importance. Best selling Economics of Strategy focuses on the key economic concepts students must master in order to develop a sound business strategy. Bringing economic theory and strategic analysis to life in an engaging and uniquely modern way, Besanko et al have collaborated for over 15 years to build an introductory business course that combines basic concepts from economic theory of the firm and industrial organization with ideas from modern strategy literature. The newly revised 5th edition offers more real world applications to make materials studied in undergraduate Managerial Economics, Business Strategy, and Industrial Organization courses relevant. Armed with general principles, today's students, tomorrow's future managers, will be prepared to adjust their firms' business strategies to the demands of the ever changing environment. **The Value Line Investment Survey**, 2009 **The**
