Effective Federal Tax Rates Under Current Law, 2001 To 2004 Ed Harris, 2008 Examines how effective federal tax rates will change over the coming decade under current law that is if the provisions of tax laws enacted in 2001 2002 2003 phase in phase out sunset as scheduled Under current law the assumption that incomes grow at a constant rate the overall effective federal tax rate drops from 21 5% in 2001 to 19 6% in 2004 It then rises irregularly over the subsequent decade as tax provisions phase in out The increases in the effective tax rate between 2005 2010 between 2011 2014 occur primarily because rising real incomes move taxpayers into higher tax brackets the alternative minimum tax affects more taxpayers over time Charts tables

Intertemporal Changes in Tax Rates Benjamin Bridges, David W. Barnes, 1979 *South Asia Development Update, April 2025* Weltbank, 2025 Growth prospects for South Asia have dimmed The global economic environment has become more challenging and is a source of heightened downside risks After a decade of repeated disruptions South Asia's buffers to cushion new shocks are slim Tackling some of its greatest inefficiencies and vulnerabilities could help South Asia navigate this unusually uncertain outlook unproductive agricultural sectors dependence on energy imports pressures from rising global temperatures and fragile fiscal positions For most South Asian countries increased revenue mobilization is a prerequisite for strengthening fiscal positions Even taking into account the particular challenges of collecting taxes in South Asian economies such as widespread informal economic activity and large agriculture sectors South Asian economies face larger tax gaps than the average emerging market and developing economy EMDE This suggests the need for improved tax policy and administration Until fiscal positions have strengthened the burden of climate adaptation will disproportionately fall on the private sector If allowed sufficient flexibility private sector adaptation could offset about one third of the likely climate damage by 2050 This may however require governments to

remove obstacles that prevent workers and firms from moving across locations and activities As growth prospects dim the challenge grows to create jobs for South Asia s rapidly expanding working age population South Asia s large diasporas could become a source of strength if their knowledge networks and other resources can be better tapped for investment and trade
