Fake News vs Media Studies Julian

McDougall, 2019-12-01 This book explores the place of Media Studies in the age of fake news analysing the calls for a curriculum of critical news literacy as part of a cyclical policy debate With the need for young people in democracies to understand mainstream news agendas and take a critical perspective on social media news including so called fake news this book argues for Media Studies as a mandatory subject However fake news is not presented in the book as a stable neutral term with a clear definition but is instead defined as an idea that risks obscuring the key critical and political premise of Media Studies All media representation requires critical deconstruction therefore any distinction between real and fake media is a false binary The author draws together two narrative strands one analysing contemporary news and journalism featuring interviews with journalists and news commentators and the other re-appraising the discipline of Media Studies itself This bold and innovative book will appeal to all those interested in the nebulous and often confusing media landscape as well as students and practitioners of Media Studies

Black Bodies That Matter James Garrison, 2024-12-15 Responding to interconnected tragedies affecting minority populations in America, *Black Bodies That Matter: Mourning, Rage, and Beauty* brings together the Black Lives Matter movement with the framework developed by Judith Butler in *Bodies That Matter*. Butler's analysis of subject life as a kind of melancholy preempts mourning where loss itself is lost, and her advocacy of public forms of grieving like the AIDS Quilt, which brings lost lives out of the shadows, highlight the problematic connection between memory and loss when it comes to subjects who do not fully matter as they should. Taking her remarks on public memorials like the AIDS Quilt, her reading of Michel Foucault's idea of the subject as a self-surveilling prisoner, and her examination of Louis Althusser's scene where the voice of police authority bellows "Hey you there" and creates the "you" that turns around beholden to conscience, James Garrison examines resonances with black experience in America which itself is marked by violence, surveillance, imprisonment, and encounters with the ominous voice of police authority. Investigating a wide array of black cultural expression, *Black Bodies That Matter* brings new insight to how mourning, vulnerability, and invulnerability, rage, and beauty connect to human dignity and the depth and breadth of black loss.
