Jahrhunderts wie wir von ihnen profitieren ohne die Kontrolle zu verlieren Bald werden wir in unserem täglichen Leben von KI umgeben sein Sie wird unseren Alltag organisieren unsere Wirtschaft prägen und sogar Kernaufgaben der Staatsverwaltung übernehmen Als Mitgründer von DeepMind hat Mustafa Suleyman viele Jahre im Zentrum der KI Revolution gearbeitet Das kommende Jahrzehnt wird nach seiner Einschätzung von rasanten technologischen Sprüngen geprägt sein von neuen technologischen Möglichkeiten über deren Folgen und Risiken wir noch kein klares Bild haben Eines aber wissen wir Wir brauchen die KI um die Herausforderungen zu meistern vor denen wir stehen etwa den Klimawandel Gleichzeitig bergen die neuen Technologien Gefahren wie sie von keiner vorherigen Fortschrittswelle ausgingen bis hin zur Auflösung von Staaten und einer Verdrängung des Menschen Was macht man mit einer Welle die auf den Strand zurast und sich nicht aufhalten lässt Man versucht sie zu kanalisieren Genau das ist das Anliegen dieses Buches Inmitten immer intensiver werdender geopolitischer Konflikte den schmalen Grat zu finden auf dem wir die Früchte der Technologie ernten ohne ihr zum Opfer zu fallen Das ist die zentrale Aufgabe unserer Zeit **Empire of AI** Karen Hao, 2025-05-20 An Instant New York Times Bestseller A bestselling page turner that has made waves not just in Silicon Valley but around the world With Empire of AI Hao is fundamentally shaping many people's perceptions and understanding of the company at the center of the AI revolution TIME Magazine TIME100 AI 2025 Excellent and deeply reported Tim Wu The New York Times Startling and intensely researched an essential account of how OpenAI and ChatGPT came to be and the catastrophic places they will

likely take us Vulture Hao's reporting inside OpenAI is exceptional and she's persuasive in her argument that the public should focus less on AI's putative sentience and more on its implications for labor and the environment Benjamin Wallace Wells New Yorker From a brilliant longtime AI insider with intimate access to the world of Sam Altman's OpenAI from the beginning an eye-opening account of arguably the most fateful tech arms race in history reshaping the planet in real time from the cockpit of the company that is driving the frenzy When AI expert and investigative journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission the organization was meant its leader Sam Altman told us to act as a check against more purely mercantile and potentially dangerous forces What could go wrong Over time Hao began to wrestle ever more deeply with that question Increasingly she realized that the core truth of this massively disruptive sector is that its vision of success requires an almost unprecedented amount of resources the compute power of high-end chips and the processing capacity to create massive large language models the sheer volume of data that needs to be amassed at scale the humans cleaning up that data for sweatshop wages throughout the Global South and a truly alarming spike in the usage of energy and water underlying it all The truth is that we have entered a new and ominous age of empire only a small handful of globally scaled companies can even enter the field of play At the head of the pack with its ChatGPT breakthrough how would OpenAI resist such temptations Spoiler alert it didn't Armed with Microsoft's billions OpenAI is setting a breakneck pace chased by a small group of the most valuable companies in human history toward what end not even they can define All this time Hao has maintained her deep sourcing within the company and the industry and so she was in intimate contact with the story that shocked the entire tech industry Altman's sudden firing and triumphant return The behind-the-scenes story of what happened told here in full for the first time is revelatory of who the people controlling this technology really are But this isn't just the story of a single company however fascinating it is The forces pressing down on the people of OpenAI are deforming the judgment of everyone else too as such forces do Naked power finds the ideology to cloak itself no one thinks they're the bad guy But in the meantime as Hao shows through intrepid reporting on the ground around the world the enormous wheels of extraction grind on By drawing on the viewpoints of Silicon Valley engineers Kenyan data laborers and Chilean water activists Hao presents the fullest picture of AI and its impact we've seen to date alongside a trenchant analysis of where things are headed An astonishing eyewitness view from both up in the command capsule of the new economy and down where the real suffering happens Empire of AI pierces the veil of the industry defining our era *The ChatGPT Side Hustle: Earning \$10K a Month with AI-Powered Services* Pradeep Maurya, 2025-04-28 Ready to ditch the 9 to 5 and start making real money online The ChatGPT Side Hustle is your ultimate step-by-step guide to turning artificial intelligence into a monthly 10K income stream even if you have zero technical skills This high-impact ebook reveals powerful proven strategies to launch and scale profitable services using ChatGPT and other AI tools Whether you want to offer freelance writing start a niche

Altman's power to bend reality to his will In *The Optimist* the Wall Street Journal reporter Keach Hagey presents the most detailed account yet of Altman's rise from his precocious childhood in St Louis to his first failed startup experience his time as legendary entrepreneur Paul Graham's protégé and successor as head of Y Combinator the start up accelerator where Altman became the premier power broker in Silicon Valley the founding of OpenAI and his recruitment of a small yet superior team and his struggle to keep his company at the cutting edge while fending off determined rivals including Elon Musk a former friend and now Altman's bitter opponent Hagey conducted more than 250 interviews with Altman's family friends teachers mentors co founders colleagues investors and portfolio companies in addition to spending hours with Altman himself The person who emerges in her portrait is a brilliant dealmaker with a love of risk who believes in technological progress with an almost religious conviction yet who sometimes moves too fast for the people around him With both the promise and peril of AI increasing by the day Hagey delivers a nuanced balanced revelatory account of the individual who is leading us into what he himself has called the intelligence age Altman is a figure out of Isaac Asimov or Neal Stephenson Or he is the author himself if it feels as though we have all collectively stepped into a science fiction short story it is Altman who is writing it
