David Fitzpatrick

Orangeism In Ireland And Throughout The Empire:

Orangeism in Ireland and Throughout the Empire R. M. Sibbett, 1914 **Irish Migration, Networks and Ethnic Identities since 1750** Dr Enda Delaney, Donald M. MacRaild, 2007-08-29 This collection of essays demonstrates in vivid detail how a range of formal and informal networks shaped the Irish experience of emigration settlement and the construction of ethnic identity in a variety of geographical contexts since 1750 It examines topics as diverse as the associational culture of the Orange Order in the nineteenth century to *Ireland and Anglo-Irish Relations since 1800: Critical Essays* N.C. Fleming, Alan O'Day, 2017-11-30 The Act of Union coming into effect on 1 January 1801 portended the integration of Ireland into a unified if not necessarily uniform community This volume treats the complexities perspectives methodologies and debates on the themes of the years between 1801 and 1879 Its focus is the making of the Union the Catholic question the age of Daniel O Connell the famine and its consequences emigration and settlement in new lands post famine politics religious awakenings Fenianism the rise of home rule politics and emergent feminism **Empire and Globalisation** Gary B. Magee, Andrew S. Thompson, 2010-02-11 Focusing on the great population movement of British emigrants before 1914 this book provides a perspective on the relationship between empire and globalisation It shows how distinct structures of economic opportunity developed around the people who settled across a wider British World through the co ethnic networks they created Yet these networks could also limit and distort economic growth The powerful appeal of ethnic identification often made trade and investment with racial outsiders less appealing thereby skewing economic activities toward communities perceived to be British By highlighting the importance of these networks to migration finance and trade this book contributes to debates about globalisation in the past and present It reveals how the networks upon which the era of modern globalisation was built quickly turned in on themselves after 1918 converting racial ethnic and class tensions into protectionism nationalism and xenophobia Avoiding such an outcome is a challenge faced today Forkhill Protestants and Forkhill Catholics, 1787-1858 Kyla Madden, 2005 Is conflict between Catholics and Protestants really the key to understanding Irish history **Orangeism in Ireland and Throughout the Empire** Robert M. Sibbett, 1915 Two Irelands Beyond the Sea Lindsey Flewelling, 2018 Uncovers the transnational movement by Ireland's unionists as they worked to maintain the Union during the Home Rule era The book explores the political social religious and Scotch Irish ethnic connections between Irish unionists and the United States as unionists appealed to Americans for support and reacted to Irish nationalism *Ireland and the British Empire* Kevin Kenny, 2004-05-27 Modern Irish history was determined by the rise expansion and decline of the British Empire And British imperial history from the age of Atlantic expansion to the age of decolonization was moulded in part by Irish experience But the nature of Ireland's position in the Empire has always been a matter of contentious dispute Was Ireland a sister kingdom and equal partner in a larger British state Or was it because of its proximity and strategic importance the Empire's most subjugated colony Contemporaries disagreed strongly on these

questions and historians continue to do so Questions of this sort can only be answered historically Ireland's relationship with Britain and the Empire developed and changed over time as did the Empire itself This book offers the first comprehensive history of the subject from the early modern era through the contemporary period The contributors seek to specify the nature of Ireland's entanglement with empire over time from the conquest and colonization of the sixteenth and seventeenth centuries through the consolidation of Ascendancy rule in the eighteenth the Act of Union in the period 1801-1921 the emergence of an Irish Free State and Republic and eventual withdrawal from the British Commonwealth in 1948 They also consider the participation of Irish people in the Empire overseas as soldiers administrators merchants migrants and missionaries the influence of Irish social administrative and constitutional precedents in other colonies and the impact of Irish nationalism and independence on the Empire at large The result is a new interpretation of Irish history in its wider imperial context which is also filled with insights on the origins expansion and decline of the British Empire This book offers the first comprehensive history of Ireland and the British Empire from the early modern era through the contemporary period The contributors examine each phase of Ireland's entanglement with the Empire from conquest and colonisation to independence along with the extensive participation of Irish people in the Empire overseas and the impact of Irish politics and nationalism on other British colonies The result is a new interpretation of Irish history in its wider imperial context which is also filled with insights on the origins expansion and decline of the British Empire

SERIES DESCRIPTION The purpose of the five volumes of the Oxford History of the British Empire was to provide a comprehensive study of the Empire from its beginning to end the meaning of British imperialism for the ruled as well as the rulers and the significance of the British Empire as a theme in world history The volumes in the Companion Series carry forward this purpose by exploring themes that were not possible to cover adequately in the main series and to provide fresh interpretations of significant topics

Faith, Fraternity and Fighting Donald M. MacRaild, 2005-01-01 This book fills one of the most significant gaps in modern British historiography Despite its public profile the Orange Order has not attracted commensurate scholarly attention Uncritical apologists apart historians have displayed condescending censure stigmatising and dismissing the Order as sectarian a term unduly restricted in their studies to violence and demonstrations Having gained unique access to lodge membership records MacRaild provides a timely corrective MacRaild makes excellent use of archive material to provide a fascinating study of diasporic Orangeism showing how it was imported into mainland Britain and implanted within working class communities as a way of life able to attract adherents with no obvious Irish provenance or connection the Toxteth lodge in North West England has a not insignificant black presence Impeccably researched and expertly written *Faith Fraternity and Fighting* is a major achievement and an important step in rescuing Orangeism from the stigma of sectarianism

Encyclopedia of the Reformed Faith Donald K. McKim, David F. Wright, 1992-01-01 Over 200 international scholars from a variety of denominations have contributed to this outstanding one volume comprehensive reference book Stressing

the importance of events persons and theological concepts that have been significant to the Reformed tradition these articles provide authoritative summaries and stimulating discussion

Descendancy David Fitzpatrick,2014-11-27 This book examines Protestant loss of power and self confidence in Ireland since 1795 David Fitzpatrick charts the declining power and influence of the Protestant community in Ireland and the strategies adopted in the face of this decline presenting rich personal testimony that illustrates how individuals experienced and perceived descendancy Focusing on the attitudes and strategies adopted by the eventual losers rather than victors he addresses contentious issues in Irish history through an analysis of the appeal of the Orange Order the Ulster Covenant of 1912 and ethnic cleansing in the Irish Revolution Avoiding both apologetics and sentimentality when probing the psychology of those undergoing descendancy the book examines the social and political ramifications of religious affiliation and belief as practised in fraternities church congregations and isolated sub communities

Orangeism in Ireland and Throughout the Empire R. M. Sibbett,Grand Orange Lodge of Ireland,Member Of the Order,1939

Orange Order Patrick Coleman,2025-01-31 On a sunny day men and women march through the streets wearing orange collarettes and carrying colourful banners However this is not the Orange Order in Northern Ireland but the same organisation in Africa This book moves beyond the cliché to delve deeply into the inner structure and rituals of the Orange Order and its global reach The Orange Order while Irish Protestant founded managed in a short period to spread to not only other parts of the UK but also to Australia New Zealand and even Africa Previous research has tended to focus on just one to two countries within a narrow timeframe This book by contrast covers almost 230 years of the Orange Order across multiple countries Unlike other studies it integrates the activities of men women and children

Orangeism in Ireland and Throughout the Empire ,1938

Interpreting Irish History Ciaran Brady,1994 This anthology aims to provide a record of the debate on the character and purpose of historical writing which has occurred among Irish historians and the tendencies within the practice of history in Ireland from which that debate arose It does not attempt to provide a survey of changing view on Irish political culture in general nor an account of the course of historiographical controversy over particular issues and events

Forgetful Remembrance Guy Beiner,2018 Forgetful Remembrance offers a new approach to the study of memory by focusing on vernacular historiographies and the notion of forgetting Using the 1798 Irish Rebellion Beiner explores how communities try to obscure inconvenient and uncomfortable events from the past

An Imperial State at War Lawrence Stone,2013-10-18 The study of eighteenth century history has been transformed by the writings of John Brewer and most recently with *The Sinews of Power* he challenged the central concepts of British history Brewer argues that the power of the British state increased dramatically when it was forced to pay the costs of war in defence of her growing empire In *An Imperial State at War* edited by Lawrence Stone himself no stranger to controversy the leading historians of the eighteenth century put the Brewer thesis under the spotlight Like the *Sinews of Power* itself this is a major advance in the study of Britain s first empire

Wellington's Men in Australia C. Wright,2011-04-28 An exploration

of the little known yet historically important emigration of British army officers to the Australian colonies in the aftermath of the Napoleonic Wars The book looks at the significant impact they made at a time of great colonial expansion particularly in new south Wales with its transition from a convict colony to a free society Evangelicalism and National Identity in Ulster, 1921-1998 Patrick Mitchel, 2003-10-30 Evangelical Protestantism in Ulster is the most influential and historically significant sector of Christianity in Northern Ireland This innovative and controversial book explores different Evangelical responses to the declining fate of Ulster Unionism during the period from Partition in 1921 to the 1998 Good Friday Agreement Focusing on how religious belief has interacted with national identity in a context of political conflict it eschews a reductionist or purely historical approach to interpreting religion Rather using a combination of historical and theological material Patrick Mitchel offers a critical assessment of how Evangelical identities in Ulster have embodied the religious beliefs and values to which they subscribe Evangelical Protestantism is often associated only with the Orange Order and with the controversial figure of Ian Paisley This book's fresh analysis of a spectrum of Evangelical opinion including the frequently overlooked moderate Evangelicals provides a more rounded picture that shows why and how Evangelical Christians in Ulster are deeply divided over politics national identity and the current Peace Process Patrick Mitchel concludes with a critical assessment of the political and theological challenges facing different Evangelical identities in the context of identity conflict in Northern Ireland This is an invaluable guide to understanding both the past and contemporary mindset of Ulster Protestantism The Irish Diaspora in Britain, 1750-1939 Donald MacRaild, 2010-11-24 This established study focuses on the most important phase of Irish migration providing analysis of why and how the Irish settled in Britain in such numbers Updated and expanded the new edition now extends the coverage to 1939 and features new chapters on gender and the Irish diaspora in a global perspective
