A. Rummler,1990 *Death of the Org Chart* Walt Brown,2020-08-14 Death of the Org Chart Long Live the Org Graph We believe the usefulness of the classic org chart has reached its limit Modern day organizations are much more complicated than the reporting structures of old Sure we still need to understand who we report to and what others in our organization look like but there is so much more We are on a mission to include the Individual Contributor to create an interactive visual solution that yields a level of Individual Contributor cognizance that will make you embarrassed if you are not running a company where everyone can answer these 14 things Imagine the power of a new person starting with your firm being able to see how the answers to these 14 questions interrelate I know the Purpose of my Job I know what Positions or Roles I fill as part of my Job and I know the Purpose of each of these Positions I know who I Report To I know who I am Mentored By I know who I turn to for Coaching in each of my Positions I know the Objectives I am pursuing and how they align with Co Objectives I know the Key Results I must hit to be doing a good job I know what Teams I am Part Of and Why I know what Meetings I Attend and Why I know what Workflows my Job and Positions participate in I know what Processes I follow and maintain as part of my Job and Positions I know what Systems I login to and Why and I know how to use them I know what Entities Clients Projects Contracts I Interact with I know what Skills I need now and in the future We call the above 14 the Organizational Cognizance Model When an individual can answer these 14 things they will be organizationally cognizant not just aware Awareness is when you smell smoke cognizance is when you know what you smell is the smoke from the cozy fireplace in the den vs an electrical fire in the wall
