Organizational Assessment and Improvement in the Public Sector Kathleen M. Immordino, 2017-09-25 Calls for performance measures and metrics sound good but public sector organizations often lack the tools required to assess the organization as a whole and create true change In order to implement an integrated cycle of assessment planning and improvement government agencies at all levels need a usable framework for organizational assessment that speaks to their unique needs *Organizational Assessment and Improvement in the Public Sector* provides that framework an understanding of assessment itself and a methodology for assessment focused on the public sector The book introduces the concept of organizational assessment its importance and its significance in public sector organizations It addresses the organizational theory that underlies assessment including change management organizational and individual learning and organizational development Building on this the author focuses on the processes and demonstrates how the communication that results from an assessment process can create a widely accepted case for change She presents a model grounded in the Malcolm Baldrige National Quality Program criteria but adapted for the culture of government organizations She also addresses the criteria that form the basis for assessment and implementation and provides examples and best practices Facing decreasing budgets and an increasing demand for services government agencies must increase their capabilities maximize their available fiscal and human resources and increase their effectiveness and efficiency They often operate in an atmosphere that prizes effectiveness but measures it in silos assigned to individual programs and a structure that encourages people to do more with less while systematically discouraging efficiency Stressing the significant and important differences between a business and a government this book supplies the knowledge and tools necessary to create a culture of assessment in government organizations at all levels

Improving International Capacity Development J. Armstrong, 2013-05-07 Nothing is more important to a new fragile or developing nation than developing the capacity of its government to support national well being Every society is complex every government is complex Yet well intentioned international development aid born in an era of infrastructure projects continues to apply simplistic technical solutions to these wickedly complex development problems It s an outside in approach that rarely succeeds even by the development industry s own admission But out there amongst the billions of dollars of failed interventions there are bright spots of success places where capacity is harnessed not just for today but for tomorrow too What is working so well Drawing on research practical experience and stories of success Jim Armstrong explores these emerging approaches

Sensemaking for Writing Programs and Writing Centers Rita Malenczyk, 2023-06-15. In this collection, writing program and writing center administrators from a range of academic institutions come together to explore their work through the lens of sensemaking. Sensemaking is an organizational theory concept that enables institutions, supervisors, teachers, tutors and others to better understand the work they do by using narrative, metaphor and other theoretical lenses. The book is divided into two sections: Sensemaking with Tutors and Teachers, and Sensemaking and Institutional Structures. Chapter authors employ several theoretical approaches to sensemaking, ranging from individual experience to institutional history, to document design, providing readers with ideas for how to administer and teach within their programs, more effectively how to advocate for their programs within larger university contexts, and how to positively influence the lives and careers of those they work with. Sensemaking for Writing Programs and Writing Centers theorizes daily experiences from working lives and suggests problem solving strategies. Writing program administrators, writing department chairs and writing center directors, tutors and staff will find value in its pages. Generalist Social Work Practice Janice Gasker, 2023-02-12.
