Original Xerographies:

Original Xerographies Bruno Munari, 2007 It is utterly forbidden to move the original during exposure because if you do the reproduction won't be exact This is where the experimenter wonders and what happens if I move this original on the plate of glass BOOK JACKET Photography in Children's Literature Elina Druker, Bettina Kümmerling-Meibauer, 2023-10-15 Photography in Children's Literature is the first study that examines the wide array of artistic techniques topics and genres used within photographic books for children Covering a time period from the 1870s to the 1980s the collection offers multifaceted insights into changing perceptions of children and childhood during an era when the world changed in unprecedented ways More than sixty full color illustrations demonstrate an impressive variety of genres from ABC books concept books and country portraits to photo reportage and poetry By discussing photographic books from ten countries and three continents the collection offers an international scope providing a glimpse into the production and reception of photography in children's literature in a range of contexts and cultures Photographic books for children thus open up new vistas for scholars interested in an interdisciplinary and transnational investigation of children's literature text and images across the centuries *Canadiana*, 1986 Electrografías Museo Internacional de Electrografía, Christian Rigal, 1991 Catálogo de las Electrografías del Museo Internacional de Electrografía de Castilla la Mancha organizado por el Museo Internacional de Electrografía la Universidad de Castilla la Mancha el Vicerrectorado de Extensión Universitaria y el Servicio de Actividades Culturales **The Invention of a Language of Emptiness**, 2025-12-31 This volume is the first annotated translation in any language of the Chojang chungga i The Meaning of the Middle and Provisional in the First Stanza a little known text that yielded considerable influence on early East Asian Buddhism It corresponds to the first chapter of the Taesŏng saron hyŏn i ki Notes on The Dark Meaning of the Four Treatises Belonging to the Great Vehicle a Samnon Sanlun compendium written by the Paekche monk Hye-gyun fl 6th-7th c after he studied with the famous Chinese Sanlun teacher Falang 507-581 Apparently directed at beginners the Chojang chungga i explains fundamental concepts in detail thus giving precious corroborative information on Chinese Sanlun as mirrored in Jizang's 549-623 works Textual parallels with Jizang's Lunji Traces of the Treatise shed new light on the extent that both disciples were indebted to their teacher Falang Additionally the text provides first hand insight into the nature of early Samnon in Paekche and important clues for understanding the origins of the famous Silla monk Wŏnhyo's 617-686 patterns of exegesis As the title implies the text centers on the First Stanza the fundamental exegetical formula Samnon Sanlun students under Falang and his immediate successors had to master The repetitive and formulaic style of the text shows that contrary to widespread misconceptions Sanlun Samnon exegetes were less concerned with the scholastic study of authoritative texts than using the Chojang chungga i to rehearse formulae designed to lead the practitioner toward awakening In doing so they struggled to find new ways of expression that transcended the usual apophatic versus cataphatic dichotomy of a middle path avoiding any

reification of the middle and the provisional They created instead cataphatic formulae that constantly affirmed yet did not produce fixed meaning just as a the first character of the Siddham alphabet pervades all texts yet as a negation prefix constantly denies any attribution The Invention of a Language of Emptiness will be of great use to those interested in commentarial exegesis as meditational practice and East Asian Buddhists attempts at developing a language of emptiness
