Congress, 2000 **Literacy and Education** Uta Papen, 2015-07-16 Literacy is a perennial hot topic in Britain and other English speaking countries Concerns about falling standards and a literacy crisis are frequently raised In response governments initiate new policies and teaching guidelines This book addresses the current policies practices and media debates in England the US Scotland and Australia Literacy and Education examines How literacy is taught to children in primary schools The place of phonics in current policies and the arguments made for and against it How teachers deliver phonics lessons and how children engage with the method The range of literacy practices children engage with throughout the school day and how they contribute to literacy learning The contributions a social and critical perspective on literacy can make to current debates regarding teaching strategies A wide range of research conducted in the UK North America Australia and other countries Bringing together policy practice and public debate and drawing on the author s extensive research in a primary school this essential new textbook provides questions and tasks for readers to engage with Literacy and Education is ideal for advanced undergraduate and postgraduate students of literacy and education and students on PGCE courses It will also be of interest to researchers and teachers *Houghton Mifflin Reading* ,2003 Grade 1 Constructivist Teaching by Heart Krista Calvert, Dana McMillan, 2024-06-03 This insightful book offers a modern take on the time honored tradition of developmentally appropriate child centered constructivist philosophy of instruction Teaching children one at a time yet all at once The book provides a comprehensive road map to teaching that supports student engagement child development classroom environment grouping and organization authentic literacy instruction and culturally informed practices Through a series of practical chapter essays and examples the authors push back against scripted curricula and one size fits all school initiatives offering instead rich examples and guiding questions to bring you closer to an authentic teaching approach that honors students and their learning Designed for early childhood through third grade teachers principals administrators and pre service students Constructivist Teaching by Heart is essential reading for professional development peer discussions university coursework individual study and everyone on the journey to making children the heart of their classrooms Leaving Johnny Behind Anthony Pedriana, 2010-10-16 In the tradition of Why Johnny Can t Read written by Rudolph Flesch in the 1950s Leaving Johnny Behind provides a comprehensive examination of the barriers that deny children adequate literacy training This book describes the obstacles faced by a school principal from Milwaukee s central city when he attempted to implement research based reading practices Upon further examination he discovered that the reading establishment generally rejects the product of legitimate science choosing instead to engage in a never ending interfusion of the latest innovations modifications and gimmicks This condition Anthony Pedriana observes has a disparate impact on poor and minorities those who suffer from dyslexia and other forms of reading disability and those for whom English is a second language But unlike Flesch who stressed the differences between phonics

and holistic practices Pedriana seeks common ground among reading practitioners He notes that there is plenty in the data for both sides to love and that failing to take advantage of that convergence is to mock our high minded expressions of children first

Literacy, Power, and the Schooled Body Kerryn Dixon,2010-11-15 What effects do space and time have on classroom management discipline and regulation How do teachers practices create schooled and literate students To explore these questions this book looks at early childhood classrooms charting the shifts and continuities as four year old children begin preschool move from preschool into primary school and come to the end of the first phase of schooling at nine years The literacy classroom is used as a specific site in which to examine how children s bodies are disciplined to become literate This is not a book that theorizes space time discipline bodies and literacy in abstract ways Rather working from a Foucaultian premise that discipline is directed onto children s bodies it moves from theory to practice Photographs lesson transcripts interviews and children s work show how teachers practices are enacted on children s bodies in time and space In this way teachers are offered practical examples from which to think about their own classrooms and classroom practice and to reflect on what works why it works and what can be changed
