The 12-Minute Weight-Loss Plan Michael Spira, 2015-01-08 The 12 Minute Weight Loss Plan takes High Intensity Interval Training (HIIT) and combines it with a straightforward, easy to stick to eating plan that shows readers how it is possible to lose weight with a minimum of effort, no special equipment, not even a gym membership, and with just 12 minutes exercise a week. Sounds too good to be true. It works, and it is supported with the latest cutting edge scientific research. No counting calories, no wholesale avoidance of carbs, no fasting. It's genuinely easy to stick to. Contents include: Why lengthy exercise routines aren't as effective as HIIT. The remarkable story behind HIIT. A simple HIIT programme to be followed three times a week. A dietary plan including a two week orientation phase followed by a continuation phase. The essence of the eating plan: smart carbs, smart fats, smart proteins. Menus and lots of quick and tasty recipes. A review of the scientific research supporting the exercise programme. HIIT has been building slowly over the past few years, with gym instructors and personal trainers quickly seeing the benefits for their clients. It is now coming into the mainstream.
