Kun Setyaning Astuti,Gary McPherson,Bambang Sugeng,Nila Kurniasari,Tutut Herawan,Christopher Drake,Ashadi,Endah
Retnowati,Adi Cilik Pierewan,2019-11-27 Music is an expression of feelings of the soul conveyed through the medium of
sound But not all sounds are music It might be said that only an organised sound or series of sounds can be called music
Thus music is connected to the eternal and constant flow and order of the universe to the laws and rhythms of nature It can
also be said that musical order is comparable to the natural order of the universe There are laws of a certain nature in the
natural sciences and likewise in music there are structures and procedures or even rules that should be followed to produce
beautiful music The International Conference Innovations for 21st Century Music Education and Research provided a timely
opportunity to take stock of the latest developments in music education and brought together educators researchers and
members of the broader community in a welcoming forum in which they were able to express theoretical and practical views
concepts research results and principles to help support the further development of music education *Peloubet's Select*
