

NBG-12LX Addressable Pull Station

Document 51063 Revision A2 ECH: 01-293 09/14/01

Description

The NBG-12LX Addressable pull station is a non-coded, dual-action manual pull station with a key-lock reset feature. It provides NOTIFIER intelligent control panels with one addressable alarm initiating input. The addressable module is housed inside the pull station. The NBG-12LX is compatible with all Notifier intelligent panels and will automatically operate in either FlashScan™ or CLIP (Classic Loop Interface Protocol) mode. FlashScan™ is a patented (U.S. Pat. No. 5,539,389) High Speed Communications Protocol. Refer to the FACP Installation Manual to determine if FlashScan™ protocol is supported. FlashScan™ or CLIP operating mode must be selected in the FACP. (This selection is not available or required in FACPs that do not support FlashScan™, therefore CLIP mode is enabled by default.) No selection is required in the Pull Station. The NBG-12LX meets the ADA requirement for a 5-lb. maximum pull force to activate the pull station. Operating instructions are molded into the pull station handle along with Braille text. Molded Terminal numbers are also present.

Installation

The NBG-12LX Addressable pull station can be surface mounted to a NOTIFIER SB-10 surface backbox or semi-flush mounted on a standard single-gang, double-gang or 4" (10.16 cm) square electrical box. The optional BG-TR trim ring can be used if the NBG-12LX is to be semi-flush mounted.

Ratings

Normal Operating Voltage: 24 VDC.
Average Operating Current (LED Flash): 300 μ A.
Temperature Range: 32° F - 120° F (0° C - 49° C).
Relative Humidity Range: 10% - 93% non-condensing.

Software Note for AM2020/AFP1010 Programming

The NBG-12LX is an Alarm Initiating Module of software type 'mpul'. If you have an older system that does not support the 'mpul' software type, the software type 'mon' may be used.

Setting the NBG-12LX Address

The NBG-12LX Addressable pull station is factory preset with address '00.' Set the address for the pull station by turning the rotary address switches on the addressable module mounted inside the pull station. Only one device per address is allowed. Multiple modules may not be set to the same address on the Signaling Line Circuit. Once the address is set, record it in the space provided on the product ID label located inside the pull station.

If, during mounting of the pull station, the door becomes detached, complete the following steps to reattach the door to the backplate. The door cannot be connected to the pull station if the unit is mounted to the backbox.

- 1) Position the door and backplate side by side in the full open position. (i.e. 180-degrees with respect to each other.)
- 2) With the backplate position fixed, move the door behind the backplate, as shown in the illustration, part A.
- 3) Align the hinge posts and holes by bringing the door up to meet the backplate, paying particular attention to the 'keying' that occurs when the door's post hole is aligned to the backplate's hinge post. Refer to the illustration, part B.
- 4) With the two pieces aligned and 'keyed' together, slide the holes down onto the posts. Refer to the illustration, part C.
- 5) Holding the backplate, close the door slightly to lock the door and backplate together.

Notifier Manuals

Scott Granneman

Notifier Manuals:

XView Reference Manual Thomas Van Raalte, 1991 XView was developed by Sun Microsystems and is derived from Sun's proprietary programming toolkit SunView. It is an easy to use object oriented toolkit that provides an OPEN LOOK user interface for X applications. For XView Version 3 the major additions are Internationalization support for XView programs. A new Drag and Drop package that lets the user transfer data between applications by dragging an interface object to a region. A mouseless input model that means XView applications can be controlled from the keyboard without a mouse. Soft function keys are also supported. The Notices package has been completely rewritten to incorporate Notice objects. The Selection package has been rewritten replacing the SunView style selection service. New panel items such as multiline text items and drop target items have been included. The Panels chapter has been reworked to clarify and simplify panel usage. XView Version 3.2 includes minor bug fixes with no significant new functionality. The XView Reference Manual has been expanded from the Attribute Summary of the previous edition of the XView Programming Manual and is now published as a companion volume. The XView toolkit provides extensive attribute value pair combinations, convenience routines, and object class hierarchies that are too voluminous to memorize without the aid of this comprehensive reference guide. It contains alphabetical listings of XView attributes, functions, and macros, as well as other reference information essential for XView programmers. A must have companion for the XView Programming Manual.

Emergency Department Compliance Manual Rusty McNew, 2017-06-14. Emergency Department Compliance Manual 2017 Edition provides everything you need to stay in compliance with complex emergency department regulations. The list of questions helps you quickly locate specific guidance on difficult legal areas such as: Complying with COBRA, Dealing with psychiatric patients, Negotiating consent requirements, Obtaining reimbursement for ED services, Avoiding employment law problems. Emergency Department Compliance Manual also features first hand advice from staff members at hospitals that have recently navigated a Joint Commission survey and includes frank and detailed information. Organized by topic, it allows you to readily compare the experiences of different hospitals. Because of the Joint Commission's hospital wide function based approach to evaluating compliance, it's been difficult to know specifically what's expected of you in the ED. Emergency Department Compliance Manual includes a concise grid outlining the most recent Joint Commission standards which will help you learn what responsibilities you have for demonstrating compliance. Plus Emergency Department Compliance Manual includes sample documentation that hospitals across the country have used to show compliance with legal requirements and Joint Commission standards. Age related competencies, Patient assessment policies and procedures, Consent forms, Advance directives, Policies and protocols, Roles and responsibilities of ED staff, Quality improvement tools, Conscious sedation policies and procedures, Triage referral and discharge policies and procedures. And much more.

Emergency Department Compliance Manual, 2018 Edition McNew, 2018-04-20. Emergency Department Compliance Manual provides everything

you need to stay in compliance with complex emergency department regulations including such topics as legal compliance questions and answers find the legal answers you need in seconds Joint Commission survey questions and answers get inside guidance from colleagues who have been there hospital accreditation standard analysis learn about the latest Joint Commission standards as they apply to the emergency department and reference materials for emergency department compliance The Manual offers practical tools that will help you and your department comply with emergency department related laws regulations and accreditation standards Because of the Joint Commission s hospital wide function based approach to evaluating compliance it s difficult to know specifically what s expected of you in the ED Emergency Department Compliance Manual includes a concise grid outlining the most recent Joint Commission standards which will help you learn understand your compliance responsibilities Plus Emergency Department Compliance Manual includes sample documentation and forms that hospitals across the country have used to show compliance with legal requirements and Joint Commission standards Previous Edition Emergency Department Compliance Manual 2017 Edition ISBN 9781454886693

Emergency Department Compliance Manual, 2016 Edition Ginsberg, Martin, Kelley, 2016-03-18 Emergency Department Compliance Manual 2016 Edition provides everything you need to stay in compliance with complex emergency department regulations The list of questions helps you quickly locate specific guidance on difficult legal areas such as Complying with COBRA Dealing with psychiatric patients Negotiating consent requirements Obtaining reimbursement for ED services Avoiding employment law problems Emergency Department Compliance Manual also features first hand advice from staff members at hospitals that have recently navigated a Joint Commission survey and includes frank and detailed information Organized by topic it allows you to readily compare the experiences of different hospitals Because of the Joint Commission s hospital wide function based approach to evaluating compliance it s been difficult to know specifically what s expected of you in the ED Emergency Department Compliance Manual includes a concise grid outlining the most recent Joint Commission standards which will help you learn what responsibilities you have for demonstrating compliance Plus Emergency Department Compliance Manual includes sample documentation that hospitals across the country have used to show compliance with legal requirements and Joint Commission standards Age related competencies Patient assessment policies and procedures Consent forms Advance directives Policies and protocols Roles and responsibilities of ED staff Quality improvement tools Conscious sedation policies and procedures Triage referral and discharge policies and procedures And much more
