Gender and Genre in 1990s Hollywood Patricia Di Risio, 2024-11-14 The 1990s was a decade of significant turmoil in Hollywood cinema which resulted in a watershed moment in the interplay of gender and genre Patricia Di Risio argues that cinematic representations of unconventional women had an important effect on traditionally male oriented genres such as the crime thriller road movie western film noir war film sci fi and horror Di Risio analyses seven key films

from the decade including *Blue Steel* 1990 *Thelma Louise* 1991 *The Quick and the Dead* 1995 *Bound* 1996 *Jackie Brown* 1997 *G I Jane* 1997 and *Alien Resurrection* 1997 paying particular attention to their use of irony allusion and pastiche She highlights how their female protagonists a majority of whom are decidedly queer or gender questioning personas produce an intense crossover in genre conventions largely driven by their gender rebellion She examines how a deconstruction of gender simultaneously allows genre hybridity and intertextuality taking these films into unexpected new directions In doing so she delineates a clear line between the unconventional nature of the representation of the female protagonists and innovative changes to genre filmmaking practices *Richard E. Norman and Race Filmmaking* Barbara Tapa Lupack, 2013-11-08 A history of the early 1900s southern born white filmmaker and the silent films he created for black audiences In the early 1900s so called race filmmakers set out to produce black oriented pictures to counteract the racist caricatures that had dominated cinema from its inception Richard E Norman a southern born white filmmaker was one such pioneer From humble beginnings as a roving home talent filmmaker recreating photoplays that starred local citizens Norman would go on to produce high quality feature length race pictures Together with his better known contemporaries Oscar Micheaux and Noble and George Johnson Richard E Norman helped to define early race filmmaking Making use of unique archival resources including Norman s personal and professional correspondence detailed distribution records and newly discovered original shooting scripts this book offers a vibrant portrait of race in early cinema Grounded in impressive archival research Barbara Lupack s book offers a long overdue history of Richard E Norman and the filmmaking company he established early in the twentieth century Lupack s ability to describe Norman s films and the work that went into their production reanimates them for readers and stresses their role in shaping early African American cinematic representation Paula Massood author of *Making a Promised Land Harlem in 20th Century Photography and Film* Thoroughly researched and crisply written The first book length work on Norman Lupack s monograph clearly delineates the Norman Company s importance Richard E Norman and *Race Filmmaking* s most profound contribution lies perhaps in how it illuminates the fraught economics of race filmmaking *Journal of American History* Lupack s book provides a wealth of archival information about this vibrant moment in film history This is a solid contribution to regional film studies and race film business practice and will appeal to scholars students and film buffs alike *Black Camera* **Jack The Bandit** Amelia Khatri, 2024-11-17 *Jack The Bandit* explores the fascinating phenomenon of how society transforms criminals into celebrated folk heroes examining the complex interplay between crime social justice and cultural mythology throughout history Through meticulous analysis of historical records court documents and folk narratives the book reveals how the noble outlaw archetype emerges across different cultures and time periods from medieval Robin Hood to American Western outlaws The book s three part structure first establishes the historical foundations of banditry then delves into the mechanics of myth making through media and popular culture and finally examines these narratives lasting impact on modern society By analyzing specific case studies including Australian

bushrangers and Western outlaws the work illuminates how socioeconomic conditions class tensions and resistance to authority contribute to the elevation of criminals to cultural icon status Particularly intriguing is the book s revelation of consistent patterns in how different societies separated by time and geography create surprisingly similar outlaw hero narratives Drawing from diverse sources including police records period newspapers and folklore collections this scholarly yet accessible work combines traditional historical analysis with contemporary sociological frameworks For true crime and history enthusiasts the book offers valuable insights into how past bandit narratives continue to influence modern perspectives on crime and justice while maintaining academic rigor without resorting to sensationalism The research particularly stands out for its examination of how media representation and public perception transform real criminal acts into heroic tales that reflect broader social justice concerns
