Corrupted Jonathan D Jansen, 2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity

contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly Rebels and Rage Adam Habib,2019-03-01 Adam Habib the most prominent and outspoken university official through the recent student protests takes a characteristically frank view of the past three years on South Africa s campuses in this new book Habib charts the progress of the student protests that erupted on Wits University campus in late 2015 and raged for the better part of three years drawing on his own intimate involvement and negotiation with the students and also records university management and government responses to the events He critically examines the student movement and individual student leaders who emerged under the banners feesmustfall and Rhodesmustfall and debates how to achieve truly progressive social change in South Africa on our campuses and off This book is both an attempt at a historical account and a thoughtful reflection on the issues the protests kicked up from the perspective not only of a high ranking member of university management but also Habib as political scientist with a background as an activist during the struggle against apartheid Habib moves between reflecting on the events of the last three years on university campuses and reimagining the future of South African higher education Adam Habib the most prominent and outspoken university official through the recent student protests takes a characteristically frank view of the past three years on South Africa s campuses in this new book Habib charts the progress of the student protests that erupted on Wits University campus in late 2015 and raged for the better part of three years drawing on his own intimate involvement and negotiation with the students and also records university management and government responses to the events He critically examines the student movement and individual student leaders who emerged under the banners feesmustfall and Rhodesmustfall and debates how to achieve truly progressive social change in South Africa on our campuses and off This book is both an attempt at a historical account and a thoughtful reflection on the issues the protests kicked up from the perspective not only of a high ranking member of university management but also Habib as political scientist with a background as an activist during the struggle against apartheid Habib moves between reflecting on the events of the last three years on university campuses and reimagining the future of South African higher education
