The Iberian Qur'an Mercedes García-Arenal, Gerard Wiegers, 2022-09-20 Due to the long presence of Muslims in Islamic territories Al Andalus and Granada and of Muslims minorities in the Christians parts the Iberian Peninsula provides a fertile soil for the study of the Qur'an and Qur'an translations made by both Muslims and Christians From the mid twelfth century to at least the end of the seventeenth the efforts undertaken by Christian scholars and churchmen by converts by Muslims both Mudejars and Moriscos to transmit interpret and translate the Holy Book are of the utmost importance for the understanding of Islam in Europe This book reflects on a context where Arabic books and Arabic speakers who were familiar with the Qur'an and its exegesis coexisted with Christian scholars The latter not only intended to convert Muslims and polemize with them but also to acquire solid knowledge about them and about Islam Qur'ans were seized during battle bought copied translated transmitted recited and studied The different features and uses of the Qur'an on Iberian soil its circulation as well as the lives and works of those who wrote about it and the responses of their audiences are the object of this book

Iconography in Medieval Spanish Literature John E. Keller, Richard P. Kinkade, 2014-07-15 The masterpieces of medieval Spanish literature have come to be known and loved by Hispanists and more recently by others throughout the world But the brilliant illuminations with which the original manuscripts were illustrated have remained almost totally unknown on the shelves of the great European libraries To redress this woeful neglect two noted scholars here

present a generous selection from this great visual treasury including many examples never before reproduced John E Keller and Richard P Kinkade have chosen five representative works dating from the mid thirteenth century to the late fifteenth to illustrate the richness of early Spanish narrative art Together these five works encompass the entire range of narrative techniques and iconography to be found in medieval Spain and reflect both foreign and native Spanish artistic tendencies The authors analyses of the relation between verbalizations and visualizations will provide students of medieval art and literature a wealth of new information expanding our knowledge of this fascinating period The beauty of many of the illuminations speaks for itself
