Numerical Analysis - Abstracts of Presentations ,1968 **Scientific and Technical Aerospace Reports** ,1994
U.S. Government Research Reports ,1964 **Selected Water Resources Abstracts** ,1979 *Stochastic Digital Control System Techniques* ,1996-05-16 Praise for the Series This book will be a useful reference to control engineers and researchers The papers contained cover well the recent advances in the field of modern control theory IEEE Group Correspondence This book will help all those researchers who valiantly try to keep abreast of what is new in the theory and practice of optimal control Control *Computational Geometry* Renhong Wang,2003 Computational geometry is a borderline subject related to pure and applied mathematics computer science and engineering The book contains articles on various topics in computational geometry based on invited lectures and contributed papers presented during the program on computational geometry at the Morningside Center of Mathematics at the Chinese Academy of Sciences Beijing The opening article by R H Wang gives a nice survey of various aspects of computational geometry many of which are discussed in detail in the volume Topics of the other articles include problems of optimal triangulation splines data interpolation problems of curve and surface design problems of shape control quantum teleportation and more The book is suitable for graduate students and researchers interested in computational geometry and specialists in theoretical computer science *The Shock and Vibration Digest* ,1979-07 *The Engineering Index Annual* ,1992 Since its creation in 1884 Engineering Index has covered virtually every major engineering innovation from around the world It serves as the historical record of virtually every major engineering innovation of the 20th century Recent content is a vital resource for current awareness new production information technological forecasting and competitive intelligence The world s most comprehensive interdisciplinary engineering database Engineering Index contains over 10 7 million records Each year over 500 000 new abstracts are added from over 5 000 scholarly journals trade magazines and conference proceedings Coverage spans over 175 engineering disciplines from over 80 countries Updated weekly **Communications and Networking** Feifei Gao,Jun Wu,Yun Li,Honghao Gao,2023-06-09 This proceedings constitutes the refereed proceedings of the 17th International Conference on Communications and Networking ChinaCom 2022 held in November 19 20 2022 Due to COVID 19 pandemic the conference was held virtually The 31 full papers presented were carefully selected from 83 submissions The papers are organized in topical sections on Signal Processing and Communication Optimization Scheduling and Transmission Optimization Network Communication Performance Enhancement Deep Learning Applications and Optimization Deep Learning and Network Performance Optimization Edge Computing and Artificial Intelligence Applications **NBS Special Publication** ,1968 **Electrical & Electronics Abstracts** ,1997 **Image Analysis and Recognition** Aurélio Campilho,Mohamed Kamel,2004-09-28 ICIAR 2004 the International Conference on Image Analysis and Recognition was the first ICIAR conference and was held in Porto Portugal ICIAR will be organized annually and will alternate between Europe and

North America ICIAR 2005 will take place in Toronto Ontario Canada The idea of offering these conferences came as a result of discussion between researchers in Portugal and Canada to encourage collaboration and exchange mainly between these two countries but also with the open participation of other countries addressing recent advances in theory methodology and applications The response to the call for papers for ICIAR 2004 was very positive From 316 full papers submitted 210 were accepted 97 oral presentations and 113 posters The review process was carried out by the Program Committee members and other reviewers all are experts in various image analysis and recognition areas Each paper was reviewed by at least two reviewing parties The high quality of the papers in these proceedings is attributed first to the authors and second to the quality of the reviews provided by the experts We would like to thank the authors for responding to our call and we wholeheartedly thank the reviewers for their excellent work in such a short amount of time We are especially indebted to the Program Committee for their efforts that allowed us to set up this publication We were very pleased to be able to include in the conference Prof Murat Kunt from the Swiss Federal Institute of Technology and Prof Mario Figueiredo of the Instituto Superior Tecnico in Portugal

Applied Mechanics Reviews, 1974 **Digital Computer Applications to Process Control** M. Paul, 2016-11-04 Considers the application of modern control engineering on digital computers with a view to improving productivity and product quality easing supervision of industrial processes and reducing energy consumption and pollution The topics covered may be divided into two main subject areas 1 applications of digital control in the chemical and oil industries in water turbines energy and power systems robotics and manufacturing cement metallurgical processes traffic control heating and cooling 2 systems theoretical aspects of digital control adaptive systems control aspects multivariable systems optimization and reliability modelling and identification real time software and languages distributed systems and data networks Contains 84 papers
