Nothing Surprising Insights Everywhere From Zero To:

Nothing Happened Susan A. Crane, 2021-01-19 The past is what happened History is what we remember and write about that past the narratives we craft to make sense out of our memories and their sources But what does it mean to look at the past and to remember that nothing happened Why might we feel as if nothing is the way it was This book transforms these utterly ordinary observations and redefines Nothing as something we have known and can remember Nothing has been a catch all term for everything that is supposedly uninteresting or is just not there It will take some possibly considerable mental adjustment before we can see Nothing as Susan A Crane does here with a capital n But Nothing has actually been happening all along As Crane shows in her witty and provocative discussion Nothing is nothing less than fascinating When Nothing has changed but we think that it should have we might call that injustice when Nothing has happened over a long slow period of time we might call that boring Justice and boredom have histories So too does being relieved or disappointed when Nothing happens for instance when a forecasted end of the world does not occur and millennial movements have to regroup By paying attention to how we understand Nothing to be happening in the present what it means to know Nothing or to do Nothing we can begin to ask how those experiences will be remembered Susan A Crane moves effortlessly between different modes of seeing Nothing drawing on visual analysis and cultural studies to suggest a new way of thinking about history By remembering how Nothing happened or how Nothing is the way it was or how Nothing has changed we can recover histories that were there all along

Philosophie als Therapie Ram A. Mall, Damian Peikert, 2018-03-20 Angeregt durch Pierre Hadots bahnbrechendes Buch Philosophie als Lebensform ist in den letzten Jahren das griechische und römische Denken als eine Art philosophische Praxis in den Blick gekommen Philosophie sei nicht nur eine Schule des Denkens sondern auch eine Schule des Lebens Philosophie eröffnet die Möglichkeit einer Bekehrung des Menschen die das ganze Leben verändert und das Wesen desjenigen verwandelt der sie vollzieht Im Zusammenspiel von vita contemplativa und vita activa vermag ein Mensch eine Lebenseinstellung zu kultivieren die auch dann trägt wenn Schicksalsschläge oder Erfahrungen von Leid und Enttäuschung ihn die Flüchtigkeit bzw Abgründigkeit seiner Existenz erkennen lassen Dazu bedarf es allerdings einer meditativ reflexiven Transformation durch geistige Übungen wie sie die Schulen der Epikureer Stoiker und Skeptiker im Sinne einer Therapie entwickelt haben Verwandte Ideen und Ansätze finden sich später bei Philosophen wie David Hume William James Friedrich Nietzsche Ludwig Wittgenstein oder Karl Jaspers aber auch in der chinesischen und in der indischen Tradition lassen sich bei Buddha im Lotos Sutra bei Nagarjuna Sri Aurobindo oder Zhuangzi Grundgedanken einer therapeutischen Wirkung von Philosophie ausmachen Ram Adhar Mall und Damian Peikert bringen diese Traditionslinien in einen Dialog der nicht nur für die interkulturelle Philosophie eine Bereicherung bedeutet

Education for Wicked Problems and the Reconciliation of Opposites Raoul J. Adam,2016-02-26 The recognition and reconciliation of opposites lies at the heart of our most personal and global problems and is arguably one of the most neglected developmental tasks of Western education Such problems are wicked in the sense that they involve real life decisions that have to be made in rapidly changing contexts involving irreducible tensions and paradoxes By exploring our human tendency to bifurcate the universe Education for Wicked Problems the Reconciliation of Opposites proposes a way to recognise and re solve some of our most wicked problems Applying an original theory of bi relational development to wicked problems Adam proposes that our everyday ways of knowing and being can be powerfully located and understood in terms of the creation emergence opposition convergence collapse and trans position of dyadic constituents such as nature culture conservative liberal and spirit matter He uses this approach to frame key debates in and across domains of knowledge and to offer new perspectives on three of the most profound and related problems of the twenty first century globalisation sustainability and secularisation This book is a comprehensive study of dyads and dyadic relationships and provides a multidisciplinary and original approach to human development in the face of wicked problems It will be of great interest to students and academics in education and psychosocial development as well as professionals across a range of fields looking for new ways to recognise and re solve the wicked problems that characterise their professions
