Making the Transition to NRP
8th Edition > page 5

NRP 8th Edition Arrives in June 2021

The NRP 8th edition brings a new curriculum that offers two levels of NRP providers, two suggested Provider course formats, and several significant practice changes that were made for educational efficiency and patient safety.

We are happy to announce that Neonatal Resuscitation Program (NRP) 8th edition materials will be available for use on June 1, 2021. The NRP 8th edition materials must be in use by January 1, 2022.

On October 21, 2020, the American Academy of Pediatrics (AAP) and the American Heart Association (AHA) released 2020 revised guidelines for neonatal resuscitation (<https://pediatrics.aappublications.org/content/pediatrics/early/2020/10/19/peds.2020-038505E.full.pdf>). The guidelines for neonatal resuscitation were written by members of the AHA, the NRP Steering Committee, and other resuscitation experts, and are used to create the educational materials for NRP 8th edition.

The NRP 8th edition algorithm (Figure 1) is a variation of the algorithm that was published in the AAP/AHA revised guidelines for neonatal resuscitation. The NRP 8th edition algorithm differs in style and word choice for educational efficiency, but it does not conflict with the published science.

NRP 8th edition introduces NRP Essentials and NRP Advanced

NRP 8th edition introduces a new educational methodology tailored to better meet the needs of the many health care professionals who manage the newly born baby. The NRP

Steering Committee made the decision to offer 2 course options so that NRP providers could excel in the course material most relevant to their role and personnel resources during newborn resuscitation.

The NRP Essentials participant will be responsible for the material in Lessons 1 through 4 only.

1. Foundations of Neonatal Resuscitation
2. Anticipating and Preparing for Resuscitation
3. Initial Steps of Newborn Care
4. Positive-Pressure Ventilation (includes Laryngeal Mask and Orogastic Tube)

The NRP Essentials learner may study additional lessons for knowledge enhancement (Lessons 5 through 11 and Supplemental Lessons) but will not be tested on that material.

The NRP Advanced participant will be responsible for the material in Lessons 1 through 4 and Lessons 5 through 11;

5. Endotracheal Intubation
6. Chest Compressions
7. Medications
8. Resuscitation and Stabilization of Babies Born Preterm
