When Research Matters Frederick M. circumstances and in what ways is research influential today Can we create better incentives and support for the conduct and use of research that is both rigorous and relevant to policy These and other questions make for fascinating reading Susan Fuhrman President Teachers College Columbia University When Research Matters asks the questions that are rarely asked about the difficult road from research to policy For the classroom educator the unevenness of the road from research to policy makes the next leg of the journey from policy to practice that much more difficult This volume gives us all a deeper understanding of the reasons research is often poorly translated into practice Pascal D Forgione Jr Superintendent of Schools Austin Texas Frederick M Hess is resident scholar and director of Education Policy Studies at the American Enterprise Institute He is also executive editor of Education Next *Bibliographic Guide to Education* ,1980 **Resources in Education** ,1990
