How To Save Money Hamilton Blanza, 2018-10-17 Some people I just don't have money while others have saving accounts full to the brim What is the difference? Some people have money and others just don't do it How to convert from a rich person who can't have a saving account to one who can boast of saving money is just as much a part of a rich person's life as the type of car they drive The brain is like any other body part and it can be trained to become good at anything For example you don't have to diet if you don't want to drive a car in the first place The key to getting started is small and let your rich mindset influence you about making huge savings all the time but immediately adopting a million dollar mindset every little bit does this principle is the most important thing about saving money Letting for that 100 dollars put in your saving account will not do the trick especially if you are not a money person Making a habit of saving a little every day will help you build a habit which would turn from a big result over a long time to a result in your brain and let your rich mindset become a habit And like anything else in life you have to try to learn from your mistakes and persevere to make a habit out of your rich mindset It's a fruitful result I'm sure with the introduction of this book you will have an idea of the core message that will be communicated to you
