Technology-using Teacher Leaders Shannon Marie Guerrero, 2005 *Mathematics for Biological Scientists* Mike Aitken, Bill Broadhurst, Stephen Hladky, 2009-09-30 Mathematics for Biological Scientists is a new undergraduate textbook which covers the mathematics necessary for biology students to understand interpret and discuss biological questions The book's twelve chapters are organized into four themes The first theme covers the basic concepts of mathematics in biology discussing the mathematics used in biological quantities processes and structures The second theme calculus extends the language of mathematics to describe change The third theme is probability and statistics where the uncertainty and variation encountered in real biological data is described The fourth theme is explored briefly in the final chapter of the book which is to show how the tools developed in the first few chapters are used within biology to develop models of biological processes Mathematics for Biological Scientists fully integrates mathematics and biology with the use of colour illustrations and photographs to provide an engaging and informative approach to the subject of mathematics and statistics within biological science

Teaching Mathematics Mark J. Driscoll, Jere Confrey, 1986 Implementing Standards-Based Math Instruction

Mary Kay Stein, Margaret Schwan Smith, Marjorie A. Henningsen, Edward A. Silver, 2009 Teachers and teacher educators interested in synthesizing their current practice with new mathematics standards will welcome this highly useful volume Author Mary Kay Stein and her colleagues at the QUASAR Project at the University of Pittsburgh present prevalent cases of mathematics instruction drawn from their research of nearly 500 classroom lessons The Mathematical Tasks Framework developed by the authors and explained thoroughly in the book offers teachers and teacher educators the means to evaluate instructional decisions the choice of materials and learning outcomes and the case studies afford readers the opportunity to ground these ideas in actual classroom practice Readers will gain insight about how to foster a challenging cognitively rich and exciting classroom climate that propels students toward a richer understanding of mathematics If every teacher and teacher educator took the opportunity to study and discuss these cases students everywhere would know and value mathematics as the national standards have envisioned Susan Loucks Horsley Director of Professional Development for the

National Institute for Science Education The power of case discussions can be fully realized using this book as a tool Equally important teachers will be highly motivated because they see their own practice mirrored in the cases Carne Barnett WestEd San Francisco CA

Cultivating Mathematical Hearts Maria del Rosario Zavala, Julia Maria Aguirre, 2023-11-27 Help students see their whole selves in the math they're learning with culturally responsive teaching Cultivating Mathematical Hearts Culturally Responsive Mathematics Teaching in Elementary Classrooms aims to re-center mathematics as a humanizing endeavor because putting children and their humanity at the heart of mathematics education can result in more engaged meaningful and joyful learning This book introduces a model and a tool for Culturally Responsive Mathematics Teaching constructed to create a safe inclusive space where all learners can come together in their own educational journey and develop a love for math that centers their experiences and comes from the heart Implementing the Culturally Responsive Mathematics Teaching Tool CRMT2 will help you cultivate and sustain meaningful rich and rigorous mathematical learning spaces for all your students experiences that foster mathematical curiosity and joy The book walks you through each aspect of the framework and tool guiding you to consider how your classroom structures lessons tasks and assessments Honor the existing cultural strengths experiences and lived realities of all your students Elicit diverse mathematical thinking and ideas Support equitable access to rigorous mathematical learning and discourse for all students Invite a sense of agency in each student's learning experience Promote high engagement and excitement while learning mathematics Nurture an understanding that mathematics is a powerful tool for making sense of the world By weaving these strategies into classroom lessons teachers can humanize mathematics instruction to successfully build a love for math while providing equitable learning opportunities that empower student voice and promote success in mathematics
