

5 TIPS FOR Taking Care of Your Mental Health

Practice Mindfulness

Take daily moments for mindfulness, like meditation, to find inner calm.

Stay Active

Do regular exercise, as it can boost your mood and reduce stress.

Get Enough Sleep

Prioritize quality sleep with a healthy bedtime routine.

Practice Gratitude

Cultivate a positive mindset by counting your blessings daily.

Seek Support When Needed

Reach out to family, friends or mental health professionals when necessary.

health developmental psychology child and adolescent psychiatry and various interrelated mental health and social policy arenas

Gulf War Vets - The Richest of Resources Kathleen O. Beauchesne, 2012 We are now poised as a country either to repeat the mistakes of the Vietnam era or to create the services and supports that our returning veterans deserve This research focuses on the importance of using an integrated change management approach to bring together the civilian corporate and military communities to support veterans of the Global War on Terror specifically those veterans who served in Iraq and Afghanistan Using force field analysis methodology and original survey research the study includes a review of the current literature on Gulf War Era veterans in the areas of the labor market diversity employee assistance human resources HR behavioral health disability and career management Survey respondents a selected sample of highly placed officials in corporations higher education and the military identified nine forces they believe have a large impact on change in corporate policies practices and programs related to the employment engagement in productive work and retention and advancement of veterans The survey respondents also identified the seven factors they believe are most important in effecting a change in corporations approach to employing Gulf War Era veterans The survey examines the nine forces identified and makes concrete recommendations about what can be done to recruit hire and retain Gulf War Era II GWE II veterans who are unique because they are more educated and more highly skilled than the veterans of all other wars The GWE II veterans will be returning home en masse over the coming years and will face a challenging job market Employers labor market experts educators and human services professionals must be prepared to welcome these veterans home and support them as they navigate the social political and economic turbulence challenging our country now and in the coming years Kathleen O Beauchesne is a Visiting Research Fellow at the University of Pennsylvania School of Social Policy and Practice Social Impact of the Arts Project SIAP She received her doctorate in Social Welfare Policy from the University of Pennsylvania and throughout her career she has directed and led employee behavioral health programs in higher education at the Johns Hopkins Institutions and for private industry She was the first director of the National Guard's Psychological Health Program a contract of the Ceridian Corporation Beauchesne has published several articles on job based behavioral health programs organizational change and work and personal life

A Guide to Substance Abuse Treatment Benefits Under the Federal Employees Health Benefits Program for ..., 1989

FEHB Guide for CSRS/FERS Annuitants, 1995

A Concise Guide to Understanding Suicide Stephen H. Koslow, Pedro Ruiz, Charles B. Nemeroff, 2014-09-18 A concise review of current research into suicide providing a guide to understanding this disease and its increasing incidence globally

Ideological and Political Bias in Psychology Craig L. Frisby, Richard E. Redding, William T. O'Donohue, Scott O. Lilienfeld, 2023-09-13 This book examines the traditional assumptions made by academics and professionals alike that have embedded sociopolitical biases that impede practice and undermine efforts to achieve an objective scientific status If allowed to go unchallenged the credibility of psychology as a discipline is compromised This contributed volume thoroughly and comprehensively examines

this concern in a conceptually and empirically rigorous manner and offers constructive solutions for minimizing undue political influences within the field of psychology. Societies in the 21st century desperately need reliable psychological science but we don't have it. This important volume explains one of the main reasons why we are making little progress on any issue that gets contaminated by the left-right culture war because the field of psychology is an enthusiastic member of one of the two teams so it rejects findings and researchers who question its ideological commitments. The authors of this engaging volume also show us the way out. They diagnose the social dynamics of bias and point to reforms that would give us the psychology that we need to address 21st century problems. Jonathan Haidt, Thomas Cooley Professor of Ethical Leadership, NYU Stern School of Business and author of *The Righteous Mind: The boundaries of free speech, censorship, moral cultures, social justice, and ideological biases* are among the many incendiary topics discussed in this book. If you are looking for a deep dive into real-world contemporary controversies, *Ideological and Political Bias in Psychology* fits the bill. The chapters are thoughtful and thought-provoking. Most readers will find something to agree with and something to rage at in almost every chapter. It just may change how you think about some of these topics. Diane F. Halpern, Professor of Psychology, Emerita, Claremont McKenna College and Past President, American Psychological Association. Unless the political left is always correct about everything in which case we wouldn't need to do research, we could just ask a leftist: the growing political monoculture of social science is a major barrier to our search for the truth. This volume shows how ideological bias should be treated as a source of research error up there with classic methodological flaws like non-random assignment and non-blind measurement. Steven Pinker, Johnstone Professor of Psychology, Harvard University and the author of *Rationality*. An important read for academics curious about how their politics/fashions/beliefs that too often are uncritically taken for granted and for non-academics wondering why we can't shake off the politics that so influences scientific work. Vernon Smith, Nobel Laureate in Economic Sciences and George L. Argyros Chair in Finance and Economics, Chapman University. *Advances* and deepens empirically rigorous scholarship into biased political influences affecting academic and professional psychology. Offers constructive solutions for minimizing undue political influences within psychology and moving the field forward. Serves as a resource for psychological academicians, researchers, practitioners, and consultants seeking to restore the principles of accurate science and effective practice to their respective areas of research.

Abuse and Neglect of the Mentally Ill
