Sourcebook for Political Communication Research Erik P. Bucy, R. Lance Holbert, 2014-06-03. The Sourcebook for Political Communication Research will offer scholars, students, researchers, and other interested readers a comprehensive source for state-of-the-art field research methods, measures, and analytical techniques in the field of political communication. The need for this Sourcebook stems from recent innovations in political communication involving the use of advanced statistical techniques, innovative conceptual frameworks, the rise of digital media as both a means by which to disseminate and study political communication, and methods recently adapted from other disciplines, particularly psychology, sociology, and neuroscience. Chapters will have a social scientific orientation and will explain new methodologies and measures applicable to questions regarding media, politics, and civic life. The Sourcebook covers the major analytical techniques used in political communication research, including surveys, both original data collections and secondary analyses, experiments, content analysis, discourse analysis, focus groups, and textual analysis, network and deliberation analysis, comparative study designs, statistical analysis, and measurement issues. **Joyce in the Belly of the Big Truck; Workbook** Joyce A. Cascio, 2005-05.

Teaching Tenets of Faith in Worship James Akerson, 2019-04-02. Western culture no longer has a broad Christian understanding. In fact, much of what American media dishes out is pantheistic or anti-religious. Sociological research indicates that a multitude of beliefs have crept into Christian understandings of faith. This situation is not new. As early as the fifteenth century, Erasmus asserted that the greatest concern of his time was that Christians were most often rank heathens when it came to their orthodoxy. It is also apparent that attendance at Sunday school, Vacation Bible School, and other gatherings has fallen at a great rate. The author believes providing Christian education in the context of worship is therefore the best opportunity for reaching believers with historical elements of faith. A twenty-four part lectionary-based catechetical curriculum is provided for worship. With it, congregations can dwell in a sermon series that is surrounded by supportive full-bodied worship. **Revelation's Rhapsody** Robert Lowery, 2006. This excellent resource is designed to help the Bible student study the book of Revelation. It is not a commentary but a guide to effective, accurate study of this very important book of the Bible. **Clergy Moms** Allison M. Moore, 2008. Walking the tightrope of home and parish life for clergy parents is notoriously difficult in all the mainline Protestant denominations, but most books on ordination and vocation ignore the question of family life. The ordination of women, the prevalence of two-career marriages, the increasing need to care for aging

family members and the recognition of non traditional families have shed new light on clergy family dynamics within the family and the church This book uses accounts of experiences gathered through interviews and surveys of clergy and their family members primarily in the Episcopal Diocese of Newark Its ultimate goal is to develop a holistic theology of vocation that has implications for the church the clergy and all families and nourishes and protects faith and family life *Subject*
