Netherlandish Distinguished Contributions Burgundian Netherlands:

Acta Historiae Artium ,2016 Magnanimous Dukes and Rising States Robert Stein,2017-02-23 In the late fourteenth and the fifteenth centuries the Dukes of Valois Burgundy created a composite monarchy in the Netherlands an area that had been dominated for centuries by several regional dynasties In this way they laid the foundation for the modern states of the Netherlands Belgium and Luxemburg The rise of the House of Burgundy can be read as the success story of a dynasty that in little over a century managed to assemble a great number of principalities thus creating a new state The Burgundian takeover however resulted in a modernization of administration jurisdiction and finances The process of unification and the character of the union are the central topics of *Magnanimous Dukes and Rising States* Robert Stein mirrors continuity and modernisation in Burgundian times with the bankruptcy of the former dynasties and the decline of feudal government The powerful towns played an important background role it was only with their support that a unification of the Netherlands was possible but this support was not unselfish This study is about the development of power relations and institutions in the field of tension between ruler and subject between centralisation and particularism

Early Dutch Painting Albert Châtelet,1981 Met bibliografie en register Jan van Naaldwijk's Chronicles of Holland Sjoerd Levelt,2011 The little known author Jan van Naaldwijk whose two early sixteenth century Dutch chronicles of Holland are preserved in autograph manuscripts in the British Library wrote at a moment reputed to be the turning point between medieval and Renaissance modes of historical writing While he primarily relied on the medieval historical tradition of Holland he expanded it in ways that allow us to appreciate the broader impact of innovations occurring at the same time in more professional scholarly circles This is the first in depth study of these chronicles and their relation to their sources placed in the wider context of

history writing running from the mid fourteenth century into the eighteenth providing new insights into the continuities and transitions that characterized the historical tradition of Holland from the late middle ages well into the early modern period An accompanying cd rom contains transcriptions of both Jan s chronicles Winner of the Society for Renaissance Studies Book Prize 2012 Short listed for the Royal Historical Society Gladstone Prize 2012 The comprehensive dictionary of Biography Comprehensive dictionary,1860 *Early Netherlandish Paintings* Susan Urbach,2015 **The history of France, from the accession of Henry the third, to the death of Louis the fourteenth.
