Networks A Very Short Introduction Very Short Introductions:

Networks: A Very Short Introduction Guido Caldarelli, Michele Catanzaro, 2012-10-25 Networks are involved in many aspects of everyday life from food webs in ecology and the spread of pandemics to social networking and public transport This Very Short Introduction explores the basics of network theory to understand the science of complexity and its importance using examples from nature technology and society and history *The Very Short Introductions Blog Book* Oxford University Press, 2014-09-01 In this free Very Short Introductions Blog Book we've gathered 30 of our VSI authors very best blog posts on topics including history politics science and more We hope you enjoy this glimpse into the passion insight and great writing that characterizes these authors and the Very Short Introductions series **Super-hubs** Sandra Navidi, 2016-01-18 Gewinner der Silver Medal des Axiom Business Book Award 2016 Auf der Liste der Bloomberg Best Books 2016 Mit einem exklusiven Vorwort von Starökonom Nouriel Roubini Super hubs enthüllt wie die Finanzelite und ihre mächtigen Netzwerke das Weltgeschehen und damit unser aller Leben beherrschen Super hubs sind die am besten vernetzten Knotenpunkte innerhalb des Finanznetzwerks wie Milliardär George Soros JP Morgan Chef Jamie Dimon und Blackrock Boss Larry Fink Ihre persönlichen Beziehungen und globalen Netzwerke verleihen ihnen finanzielle wirtschaftliche und politische Super Macht Mit ihren Entscheidungen bewegen sie täglich Billionen auf den Finanzmärkten und haben somit direkten Einfluss auf Industrien Arbeitsplätze Wechselkurse Rohstoffe oder sogar den Preis unserer Lebensmittel Als Insiderin der Hochfinanz nimmt Sandra Navidi Sie mit hinter die Kulissen dieses Mikrokosmos der Macht zum Weltwirtschaftsforum in Davos zum Internationalen Währungsfonds zu Thinktanks Benefizgalas und glamourösen Partys Sie beleuchtet die Menschen die hinter abstrakten Institutionen und Billionen an Kapital stehen ihr Erfolgsgeheimnis ihre privilegierte Existenz und die Auswirkungen auf unser Finanzsystem und damit auch auf die Zukunft unserer Wirtschaft und Gesellschaft Erstmals überhaupt gibt Sandra Navidi damit einen Einblick in die sonst hermetisch abgeriegelte Machtelite Auch im Hinblick auf die Kontroverse des Großen Reset bleibt dies ein aktuelles Thema **Netzwerke in kulturpolitischen**

Veränderungsprozessen Robert Peper, 2016-04-29 Robert Peper führt in diesem Buch die Netzwerkanalyse als Methode für die Untersuchung kulturpolitischer Machtstrukturen ein und geht der Frage nach wer die Kulturlandschaft in der Großstadt gestaltet Der Schwerpunkt dieser kultursoziologischen Analyse liegt auf der Untersuchung von Relationen also menschlichen Beziehungen Dafür interviewte der Autor in den Jahren 2012 und 2013 zahlreiche Hamburger Politiker Verwaltungsbeamte Museumsfachleute und Vertreter der Zivilgesellschaft So konnte er die Kommunikations und Konfliktstrukturen sichtbar machen welche die Fortentwicklung der Hamburger Museumsstrukturen einerseits beschleunigten andererseits aber auch blockierten **Projects: A Very Short Introduction** Andrew Davies, 2017-10-19 What is a project How are projects organized to deal with a complex rapidly changing and uncertain world Why are projects the organization of the future A project is a temporary organization and one time process established to achieve a desired outcome Projects range in size from small

teams to large international joint ventures and temporary coalitions of public and private organizations What distinguishes projects from all other organizational activities such as mass produced products and services is that a project is finite in duration lasting from hours days or weeks to years and in some cases decades Each project is disposable It brings together people and resources to accomplish a goal and when the goal is accomplished the organization disappears When projects are complex unpredictable and changing their plans have to be flexible and able to adjust to situations that cannot be foreseen at the outset In this Very Short Introduction Andrew Davies looks at how projects have developed since the industrial revolution to create the human built world in which we live work and play Considering some of our greatest endeavours such as the Erie Canal Apollo Moon landing Japanese product development and Chinese ecocity projects Davies identifies how projects are organized and managed to design and produce large and complex systems cope with fast changing conditions and deal with the immense uncertainties required to create breakthrough innovations in products and services He concludes by considering how projects could be organized to address the challenges facing the post industrial society of the 21st century

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Complexity: A Very Short Introduction John H. Holland, 2014-07-24 The importance of complexity is well captured by Hawking's comment Complexity is the science of the 21st century From the movement of flocks of birds to the Internet environmental sustainability and market regulation the study and understanding of complex non linear systems has become highly influential over the last 30 years In this Very Short Introduction one of the leading figures in the field John Holland introduces the key elements and conceptual framework of complexity From complex physical systems such as fluid flow and the difficulties of predicting weather to complex adaptive systems such as the highly diverse and interdependent ecosystems of rainforests he combines simple well known examples Adam Smith's pin factory Darwin's comet orchid and Simon's watchmaker with an account of the approaches involving agents and urn models taken by complexity theory

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Network Church Andy Lord, 2012-03-19 Drawing on pentecostal experience of growing church networks this book offers a systematic ecclesiology that provides a fresh approach to catholicity church structures partnership and contextualisation

Analyzing Narratives in Social Networks Zvi Lotker, 2021-08-28 This book uses literature as a wrench to pry open social networks and to ask different questions than have been asked about social networks previously The book emphasizes the story telling aspect of social networks as well as the connection between narrative and social networks by incorporating narrative

dynamic networks and time Thus it constructs a bridge between literature digital humanities and social networks This book is a pioneering work that attempts to express social and philosophic constructs in mathematical terms The material used to test the algorithms is texts intended for performance such as plays film scripts and radio plays mathematical representations of the texts or literature networks are then used to analyze the social networks found in the respective texts By using literature networks and their accompanying narratives along with their supporting analyses this book allows for a novel approach to social network analysis

Abolitionism: A Very Short Introduction Richard S. Newman, 2018-07-02 From early slave rebels to radical reformers of the Civil War era and beyond the struggle to end slavery was a diverse dynamic and ramifying social movement In this succinct narrative Richard S Newman examines the key people themes and ideas that animated abolitionism in the eighteenth and nineteenth centuries in the United States and internationally Filled with portraits of key abolitionists including Frederick Douglass William Lloyd Garrison Anthony Benezet Toussaint L Ouverture Elizabeth Heyrick Richard Allen and Angelina Grimk the book highlights abolitionists focus on social and political action From the Underground Railroad and legal aid for oppressed people to legislative lobbying and military service abolitionists employed every conceivable means to attack slavery and racial injustice Their collective struggles helped bring down slavery the most powerful economic and political institution of the age across the Atlantic world and inspired generations of reformers Sharply written and highly readable *Abolitionism A Very Short Introduction* offers an inspiring portrait of the men and women who dedicated their lives to fighting racial oppression ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Global Free Expression - Governing the Boundaries of Internet Content Ben Wagner, 2016-09-02 This book examines the changes in the governance of human expression as a result of the development of the Internet It tells the story of the emergence of a global regime that almost completely lacks institutions and develops a concept of expression governance that focusses on the governance practices of key actors in Europe and North America The book illuminates the increased disciplinary capacity of the Internet infrastructure that has become apparent to the public following Edward Snowden s leaks in 2013 and provides a theoretical frame within which such changes can be understood It argues that the Internet has developed a global default of permissible speech that exists pervasively across the globe but beyond the control of any one actor It then demonstrates why the emergence of such a global default of speech is crucial to global conflict in the international relations of the Internet The book concludes with an elaboration of the regulatory practices and theatrical performances that enable a global regime as well as the three key narratives that are embedded within it

The Avant Garde: A Very Short Introduction David Cottington, 2013-01-31 The avant garde is perhaps the most important and influential concept in the history of modern culture For over a hundred years

it has governed critical and historical assessment of the quality and significance of an artist or a work of art in any medium if these have been judged to be avant garde then they have been worthy of consideration If not then by and large they have not and neither critics nor historians have paid them much attention In short modern art is and has been whatever the avant garde has made or has said it is But very little attempt has been made to explore why the avant garde carries so much authority or how it came to do so What is more the term remains a difficult one to define and is often used in a variety of ways What is the relation between the avant garde that is the social entity the club and avant garde qualities in a work of art or design or architecture or any other cultural product What does avant gardism mean Moreover now that contemporary art seems to have broken all taboos and is at the centre of a billion pound art market is there still an avant garde If so what is the point of it and who are the artists concerned In this Very Short Introduction David Cottington explores the concept of the avant garde and examines its wider context through the development of western modernity capitalist culture and the global impact of both ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Globalization: A Very Short Introduction Manfred B. Steger, 2020-05-28 We live today in an interconnected world in which ordinary people can become instant online celebrities to fans thousands of miles away in which religious leaders can influence millions globally in which humans are altering the climate and environment and in which complex social forces intersect across continents This is globalization In the fifth edition of his bestselling Very Short Introduction Manfred B

Steger considers the major dimensions of globalization economic political cultural ideological and ecological He looks at its causes and effects and engages with the hotly contested question of whether globalization is ultimately a good or a bad thing From climate change to the Ebola virus Donald Trump to Twitter trade wars to China s growing global profile Steger explores today s unprecedented levels of planetary integration as well as the recent challenges posed by resurgent national populism ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Brot und Gerechtigkeit Hinnerk Onken,2013

Design for Information Isabel Meirelles,2013-10-01 The visualization process doesn t happen in a vacuum it is grounded in principles and methodologies of design cognition perception and human computer interaction that are combined to one s personal knowledge and creative experiences Design for Information critically examines other design solutions current and historic helping you gain a larger understanding of how to solve specific problems This book is designed to help you foster the development of a repertoire of existing methods and concepts to help you overcome design problems Learn the ins and outs of data visualization with this informative book that provides you with a series of current visualization case studies The visualizations discussed are analyzed for their design principles and methods giving you valuable critical and analytical tools to further develop your design process The case study format of this book is perfect for discussing the histories theories and best practices in the field through real world effective visualizations The selection represents a fraction of effective visualizations that we encounter in this burgeoning field allowing you the opportunity to extend your study to other solutions in your specific field s of practice This book is also helpful to students in other disciplines who are involved with visualizing information such as those in the digital humanities and most of the sciences

Hate Speech and Human Rights in Eastern Europe Viera Pejchal,2020-04-03 Hate Speech and Human Rights Democracies need to understand these terms to properly adapt their legal frameworks Regulation of hate speech exposes underlining and sometimes invisible societal values such as security and public order equality and non discrimination human dignity and other democratic vital interests The spread of hatred and hate speech has intensified in many corners of the world over the last decade and its regulation presents a conundrum for many democracies This book presents a three prong theory describing three different but complementary models of hate speech regulation which allows stakeholders to better address this phenomenon It examines international and national legal frameworks and related case law as well as pertinent scholarly literature review to highlight this development After a period of an absence of free speech during communism post communist democracies have sought to build a framework for the exercise of free speech while protecting public goods such as liberty equality and human dignity The three prong theory is applied to identify public goods and values underlining the regulation of hate speech in the Czech Republic and Slovakia two countries that share a political

sociological and legal history as an example of the differing approaches to hate speech regulation in post communist societies due to divergent social values despite identical legal frameworks This book will be of great interest to scholars of human rights law lawyers judges government NGOs media and anyone who would like to understand values that underpin hate speech regulations which reflect values that society cherishes the most *The Bloomsbury Handbook of Religion and Nature* Laura Hobgood, Whitney A. Bauman, 2018-05-17 Divided into four parts Earth Air Fire and Water this book takes an elemental approach to the study of religion and ecology It reflects recent theoretical and methodological developments in this field which seek to understand the ways that ideas and matter minds and bodies exist together within an immanent frame of reference The Bloomsbury Handbook of Religion and Nature focuses on how these matters materialize in the world around us thereby addressing key topics in this area of study The editors provide an extensive introduction to the book as well as useful introductions to each of its parts The volume's international contributors are drawn from the USA South Africa Netherlands Norway Indonesia and South Korea and offer a variety of perspectives voices cultural settings and geographical locales This handbook shows that human concern and engagement with material existence is present in all sectors of the global community regardless of religious tradition It challenges the traditional methodological approach of comparative religion and argues that globalization renders a comparative religious approach to the environment insufficient

Anthropology in the Anthropocene Christoph Antweiler, 2024-11-25 In this book anthropologist and geologist Christoph Antweiler shows that geology is a special namely historical natural science and is therefore relevant for a historically informed anthropology He argues that we do not only need a geologically informed cultural anthropology but conversely also an anthropologically oriented geology A comprehensive geology must include material human culture as a fundamental geological phenomenon In relation to cultural anthropology the author discusses the challenge the Anthropocene poses for cultural anthropology as a traditionally micro oriented social science The book discusses where the blind spots lie in the highly interdisciplinary discussion Common narratives are critically scrutinized The author argues for the need for a new discipline geoanthropology **Welcome to the Table** Tony Kriz, 2011-11-30 The culture in North America is shifting out from under the Christian church This book demonstrates how this shift is calling for change in the church and the art of Jesus proclamation On the one hand the church is losing its place of influence within greater society but on the other hand this post Christian citizenry are more open less anxious when faced with many Christian expressions One particular hope for the church as it discovers a new life within post Christendom will be found in historically grounded liturgical worship Welcome to the Table was written by a churchman who is also a citizen of post Christian culture It provides a thoughtful discussion of the place of liturgical worship within the culture shift addressing it thematically and providing specific and practical suggestions for the administration of ancient forms **Locative Social Media** L. Evans, 2015-05-19 This book offers a critical analysis of the effect of usage of locative social media on the perceptions and phenomenal

experience of lived in spaces and places Drawing on users accounts of location based social networking a digital post phenomenology of place is developed to explain how place is mediated in the digital age
