Beyond Age Effects in Instructional L2 Learning Simone E. Pfenninger,David Singleton,2017-04-21 This book constitutes a holistic study of how and why late starters surpass early starters in comparable instructional settings Combining advanced quantitative methods with individual level qualitative data it examines the role of age of onset in the context of the Swiss multilingual educational system and focuses on performance at the beginning and end of secondary school thereby offering a long term view of the teenage experience of foreign language learning The study

scrutinised factors that seem to prevent young starters from profiting from their extended learning period and investigated the mechanisms that enable late beginners to catch up with early beginners relatively quickly Taking account of contextual factors individual socio affective factors and instructional factors within a single longitudinal study the book makes a convincing case that age of onset is not only of minimal relevance for many aspects of instructed language acquisition but that in this context for a number of reasons a later onset can be beneficial Understanding Second Language Acquisition

Lourdes Ortega,2014-02-04 Whether we grow up with one two or several languages during our early years of life many of us will learn a second foreign or heritage language in later years The field of Second language acquisition SLA for short investigates the human capacity to learn additional languages in late childhood adolescence or adulthood after the first language in the case of monolinguals or languages in the case of bilinguals have already been acquired Understanding Second Language Acquisition offers a wide encompassing survey of this burgeoning field its accumulated findings and proposed theories its developed research paradigms and its pending questions for the future The book zooms in and out of universal individual and social forces in each case evaluating the research findings that have been generated across diverse naturalistic and formal contexts for second language acquisition It assumes no background in SLA and provides helpful chapter by chapter summaries and suggestions for further reading Ideal as a textbook for students of applied linguistics foreign language education TESOL and education it is also recommended for students of linguistics developmental psycholinguistics psychology and cognitive science Supporting resources for tutors are available free at [www.routledge.com/ortega](http://www.routledge.com/ortega) **Communication Technology Update and Fundamentals** August E.
