Free Ride Robert Levine, 2012-09-06 Information wants to be free says influential technologist Stewart Brand at a 1984 hacker convention These words became the mantra that shaped the Internet and the conflict he predicted has led to a revolution in the way that our culture is funded and consumed We have come to demand free content online mistaking the packaging of physical products for what we were actually paying for the creative content Newspapers are being pressurised to give their content away for free online music sales have

plummeted due to piracy and Amazon is using its market power to drive down the price of ebooks Technology companies are making millions from content created and funded by others reducing the value of culture in the process How did the media industry lose control over its destiny What are the consequences And are we headed for cultural meltdown if the media can't stop the free ride

The Great Web 3.0 Glossary Nikolas Beutin, Daniel Boran, 2023-02-14 Metaverse Non Fungible Tokens NFTs Cryptocurrencies Blockchain Artificial Intelligence AI Service Robots etc are a rapidly expanding field with an ever increasing number of terms and community specific jargon A new term is not always accompanied by something truly novel In addition to verbal pseudo innuendos and crypto slang introduced with the intent of attracting attention quickly there are several significant new developments The issue with this development is that the risk of Babylonian language confusion is growing exponentially Our observations indicate that this risk is particularly prevalent in the dialogue between science and practice This book hopes to contribute to the clarification with quick access to all key terms Obviously many online marketplaces platforms encyclopedias and glossaries already exist However our pre book analysis has revealed that neither is even close to completion sometimes with imprecise language and often with contradictory definitions and explanations This glossary provides quick access for managers students and professors alike who are faced with the topics in their daily work Students may keep track of the web 3.0's numerous terms as they study it Instructors teachers and professors may use it as a guide for a consistent use of Metaverse NFT Cryptocurrency and Blockchain terminology Although the more than 1300 explanations of the individual terms are scientifically based the focus is on easy understanding of the terms The authors have made an effort to provide clear and concise definitions an application focused perspective and simple language
