Macworld, 2003 Artificial Intelligence for Marketing Jim Sterne, 2017-08-02 A straightforward non technical guide to the next major marketing tool Artificial Intelligence for Marketing presents a tightly focused introduction to machine learning written specifically for marketing professionals This book will not teach you to be a data scientist but it does explain how Artificial Intelligence and Machine Learning will revolutionize your company's marketing strategy and teach you how to use it most effectively Data and analytics have become table stakes in modern marketing but the field is ever evolving with data scientists continually developing new algorithms where does that leave you How can marketers use the latest data science developments to their advantage This book walks you through the need to know aspects of Artificial Intelligence including natural language processing speech recognition and the power of Machine Learning to show you how to make the most of this technology in a practical tactical way Simple illustrations clarify complex concepts and case studies show how real world companies are taking the next leap forward Straightforward pragmatic and with no math required this book will help you Speak intelligently about Artificial Intelligence and its advantages in marketing Understand how marketers without a Data Science degree can make use of machine learning technology Collaborate with data scientists as a subject matter expert to help develop focused use applications Help your company gain a competitive advantage by leveraging leading edge technology in marketing Marketing and data science are two fast moving turbulent spheres that often intersect that

intersection is where marketing professionals pick up the tools and methods to move their company forward Artificial Intelligence and Machine Learning provide a data driven basis for more robust and intensely targeted marketing strategies and companies that effectively utilize these latest tools will reap the benefit in the marketplace Artificial Intelligence for Marketing provides a nontechnical crash course to help you stay ahead of the curve **Popular Photography** ,1992-12

Ethics and the Digital Transformation of Human Work Peter G. Kirchsclaeger,2025-09-26 Digital transformation and AI more adequately defined as Data Based Systems DS will create new jobs and lead to disruptions Will digital transformation and Data Based Systems DS lead to a massive reduction of paid professional tasks for humans This book offers a critical and comprehensive discussion of the impact of digital transformation on human jobs from an ethical perspective It presents an ethically sound and concrete model to address this pressing issue for societies worldwide the Society Entrepreneurship Research Time Model SERT *AI for Arts* Niklas Hageback,Daniel Hedblom,2021-08-25 AI for Arts is a book for anyone fascinated by the man machine connection an unstoppable evolution that is intertwining us with technology in an ever greater degree and where there is an increasing concern that it will be technology that comes out on top Thus presented here through perhaps its most esoteric form namely art this unfolding conundrum is brought to its apex What is left of us humans if artificial intelligence also surpasses us when it comes to art The articulation of an artificial intelligence art manifesto is long overdue so hopefully this book can fill a gap that will have repercussions not only for aesthetic and philosophical considerations but possibly more so for the development of artificial intelligence *Popular Photography* ,1993-02
