Why America Didn't Become Great Again Robert Chernomas, Ian Hudson, 2025-04-22 Examining the conditions that not only blocked attempts to make America great again but also actively made the country worse *Why America Didn't Become Great Again* identifies those organizations institutions politicians and prominent characters in the forefront of the economic and social policies ultimately asking who is responsible The period from the late 1970s to 2020s became the best of times for America's corporate class As profits grew along with the wealth and income that they delivered for their stockholders and management their goal was to set new rules for the rest of us to live by with a clear class agenda Institutions have been organized government policies reoriented and economists journalists and politicians recruited funded and promoted And so it has not been the best of times for working families as inequality stagnant wages debt and ever longer working hours became their fate This book critically analyzes those who very deliberately set out to implement policies enacted at the state and federal level in order to redistribute wealth and income upwards and change the balance of power in the United States in response to the class gender and racial challenges that resulted in compressed income and wealth differentials before the 1980s An essential book on contemporary inequality in America *Why America Didn't Become Great Again* surveys the past near half century that resulted in American economic instability and inequality environmental crisis a crumbling physical and harmful social infrastructure among the very worst health outcomes child poverty food insecurity and social mobility of the industrialized countries culminating in a Trump regime and the road to further ruin

Research Handbook on Digital Transformations F. Xavier Olleros, Majlinda Zhegu, 2016-09-30 The digital transition of our economies is now entering a phase of broad and deep societal impact While there is one overall transition there are many different sectoral transformations from health and legal services to tax reports and taxi rides as well as a rising number of transversal trends and policy issues from widespread precarious employment and privacy concerns to market monopoly and cybercrime They all are fertile ground for researchers as established laws and regulations organizational structures business models value networks and workflow routines are contested and displaced by newer alternatives This *Research Handbook* offers a rich and interdisciplinary synthesis of some of the current thinking on the digital transformations underway

Fixed Coupon Note: High Returns And Low Risk Rajiv Aggarwal, 2020-11-13 Equities are generally perceived to be more volatile than fixed income investments Many risk averse investors are unable to digest the daily ups and downs in the prices of equities They also feel that from a historical perspective equities are overpriced and thus are not comfortable taking equity positions at current valuations On the other hand global interest rates have been on a decline from the 1970s when inflation was finally under control by central banks This decline in interest rates means that investors have to live with lower nominal returns Since the Global Financial Crisis of 2008 many investors have been feeling left out of the equity markets Fixed Coupon Notes FCNs are quasi equity and quasi bond structures which aim to provide higher returns than bonds with lower risks compared to equities Moreover they also provide an avenue to enter equities at reasonable prices and acceptable valuations Being the most popular structured product in Asia there is sufficient institutional experience about the product This book aims to provide the basics as well as the nuances of investing in FCNs so that an investor not only understands the concepts behind the product but is also able to avoid common pitfalls *Platform Socialism* James Muldoon, 2022-01-20 Ground breaking and ambitious Nick Srnicek author of Platform Capitalism Whoever controls the platforms controls the future Platform Socialism sets out an alternative vision and concrete proposals for a digital economy that expands our freedom Powerful tech companies now own the digital infrastructure of twenty first century social life Masquerading as global community builders these companies have developed sophisticated new techniques for extracting wealth from their users James Muldoon shows how grassroots communities and transnational social movements can take back control from Big Tech He reframes the technology debate and proposes a host of new ideas from the local to the international for how we can reclaim the emancipatory possibilities of digital platforms Drawing on sources from forgotten histories to contemporary prototypes he proposes an alternative system and charts a roadmap for how we can get there Facebook Nation Newton Lee, 2014-10-16 Facebook s psychological experiments and Edward Snowden s NSA leaks epitomize a world of increasing information awareness in the social media ecosystem With over a billion monthly active users Facebook as a nation is overtaking China as the largest country in the world President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook U S Chief Information Officer Steven VanRoekel opines that America has become a Facebook nation that demands increased transparency and interactivity from the federal government Ubiquitous social networks such as Facebook Google Twitter and YouTube are creating the technologies infrastructures and big data necessary for Total Information Awareness a controversial surveillance program proposed by DARPA after the 9 11 attacks NSA s secret PRISM program has reinvigorated WikiLeaks founder Julian Assange s accusation that Facebook is the most appalling spying machine that has ever been invented Facebook CEO Mark Zuckerberg once said We exist at the intersection of technology and social issues This book offers discourse and practical advice on the privacy issue in the age of big data business intelligence in social media e government and e activism as well as
